[cait.rutgers.edu/cait/events](http://cait.rutgers.edu/cait/events)

For more information, contact Barbara Morgan  
at [barbara.morgan@soe.rutgers.edu](mailto:barbara.morgan@soe.rutgers.edu) or Dave  
Maruca at [dem200@soe.rutgers.edu](mailto:dem200@soe.rutgers.edu)

The New Jersey Work Zone Safety Conference promotes work zone safety awareness on local and state roadways for a multi-disciplinary audience of construction, engineering, public safety, maintenance and operations personnel.

This year's event will include a presentation focused on streamlining work zone safety documentation through a phone application followed by a presentation on attenuators. The keynote presentation will be delivered by Bradley Sant, a Professional Engineer with the American Road & Transportation Builders Association who will be speaking about the dangers of internal work zones which account for approximately 50% of all fatalities. The conference will conclude with a panel discussion on the best practices and importance of preconstruction meetings followed by a presentation on the role of police in work zones.

As part of the program, the New Jersey Work Zone Safety Excellence Awards will be presented to recognize inspiring efforts of individuals, companies and roadway agencies that have demonstrated effective temporary traffic control in planned work zones on New Jersey roadways.

### PROFESSIONAL CREDITS

*The 2020 Annual New Jersey Work Zone Safety Conference offers PDH and DCA CPWM credits (pending).*

This event is developed with support from the  
New Jersey Division of Highway Traffic Safety,  
New Jersey Department of Transportation, and  
the Federal Highway Administration.
