

STORAGE ACCESS CONTROL SOLUTIONS FOR ANY FACILITY

SCHOOL DISTRICTS | UNIVERSITIES | CORPORATE CAMPUSES | INDUSTRIAL SITES | HOSPITALS
DISTRIBUTION CENTERS | WORSHIP CENTERS | CALL CENTERS | GOVERNMENT FACILITIES

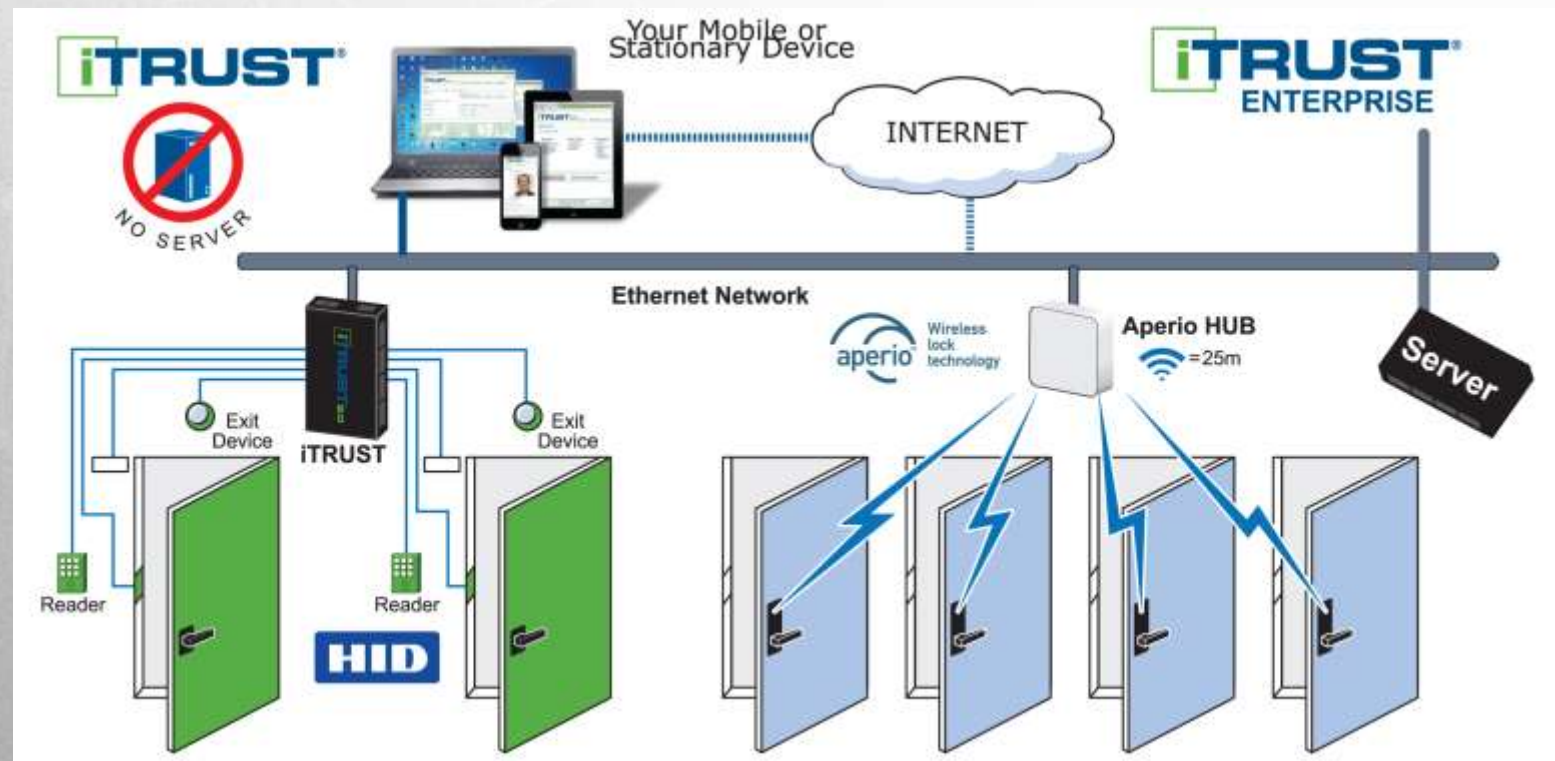

**NEW BUILD
RETRO FIT
UPGRADE**

Monitor Dynamics' Access Control allows for diverse applications for secured storage solutions. Smart Locker Systems provide a contact-less, fully integrated and secure system to simplify credentialed access, storage, product pickup/drop-off and retrieval, ensuring authorized access only with recorded monitoring.

Any type of facility may implement smart storage with the latest security technology.

iTRUST access control technology which may be implemented by itself or in conjunction with most access control systems. Credentials are assigned at the time of card enrollment ensuring authorized access control is in place for designated storage lockers and points of entry.

The complete line of Aperio Wireless Locks are compatible.

HES KS100

AVAILABLE

OCCUPIED

1ST LOCKER ROW

2ND LOCKER ROW

3RD LOCKER ROW

How to Get a Locker:

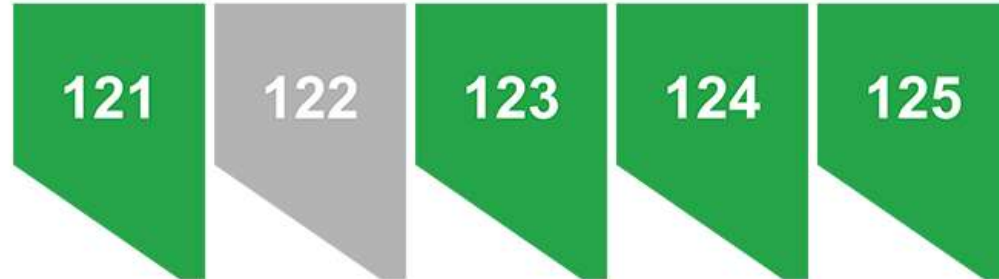

1. Find a locker on the screen that is available.
2. Present your EY badge to that lock and turn the knob to open when the light flashes green.
3. Put your belongings inside and close the door.
4. To get your belongings out of the locker repeat step two.

Note: Always make sure that the locker shows as occupied if your belongings are in that locker.
