

over 100 years of innovation

S300 stretch machine

Unlike some competitors', our stretch machine is constructed using a welded steel frame and commercial grade components to provide years of trouble free use. Large cushioned seat and kneepads, ergonomic design, and stretching guide ensure correct positioning. Non-slip foot pedals, multi-position handlebars, and integrated safety straps provide a safe and enjoyable workout experience.

- Exercise placard with 8 key stretches: lower back, hamstrings, gluteals/hips, inner thigh/groin, hips/legs/back, upper back, shoulders and quadriceps
- Oversized, welded steel tube construction with pre-drilled bolt holes for superior strength, stability and durability
- Ergonomic design ensures the correct position and accommodates users of all sizes
- Large cushioned seat and knee pads for comfort
- Multi-position hypo-allergenic handlebars
- Adjustable safety straps
