Volume One May 8, 2014

Welcome to our first publication of the Prescott Chapter newsletter. The board wants to communicate with every member. We will email this newsletter and print it for those with no email addresses. This newsletter is for you.

The World War II Memorial honors the 16 million who served in the armed forces of the U.S., the more than 400,000 who died, and all who supported the war effort from home. Symbolic of the defining event of the 20th Century, the memorial is a monument to the spirit, sacrifice, and commitment of the American people. The Second World War is the only 20th Century event commemorated on the National Mall's central axis.

“The willingness with which our young people are likely to serve in any war, no matter how justified, shall be directly proportional to how they perceive the veterans of earlier wars were treated and appreciated by their nation.” – George Washington
