October 12, 1978

To the Students of Magdalena High:

Throughout the past years in the classroom you have met many problems, had disappointments, as well as victories. You have built those ideals that from now on will guide you through many years to come.

It has been my pleasure to be associated with the Magdalena Schools. I am honored to have had the opportunity to share a part of your 1978-79 school year.

May the best of everything be yours always.

Sincerely,

Lena Castillo

Interim Superintendent

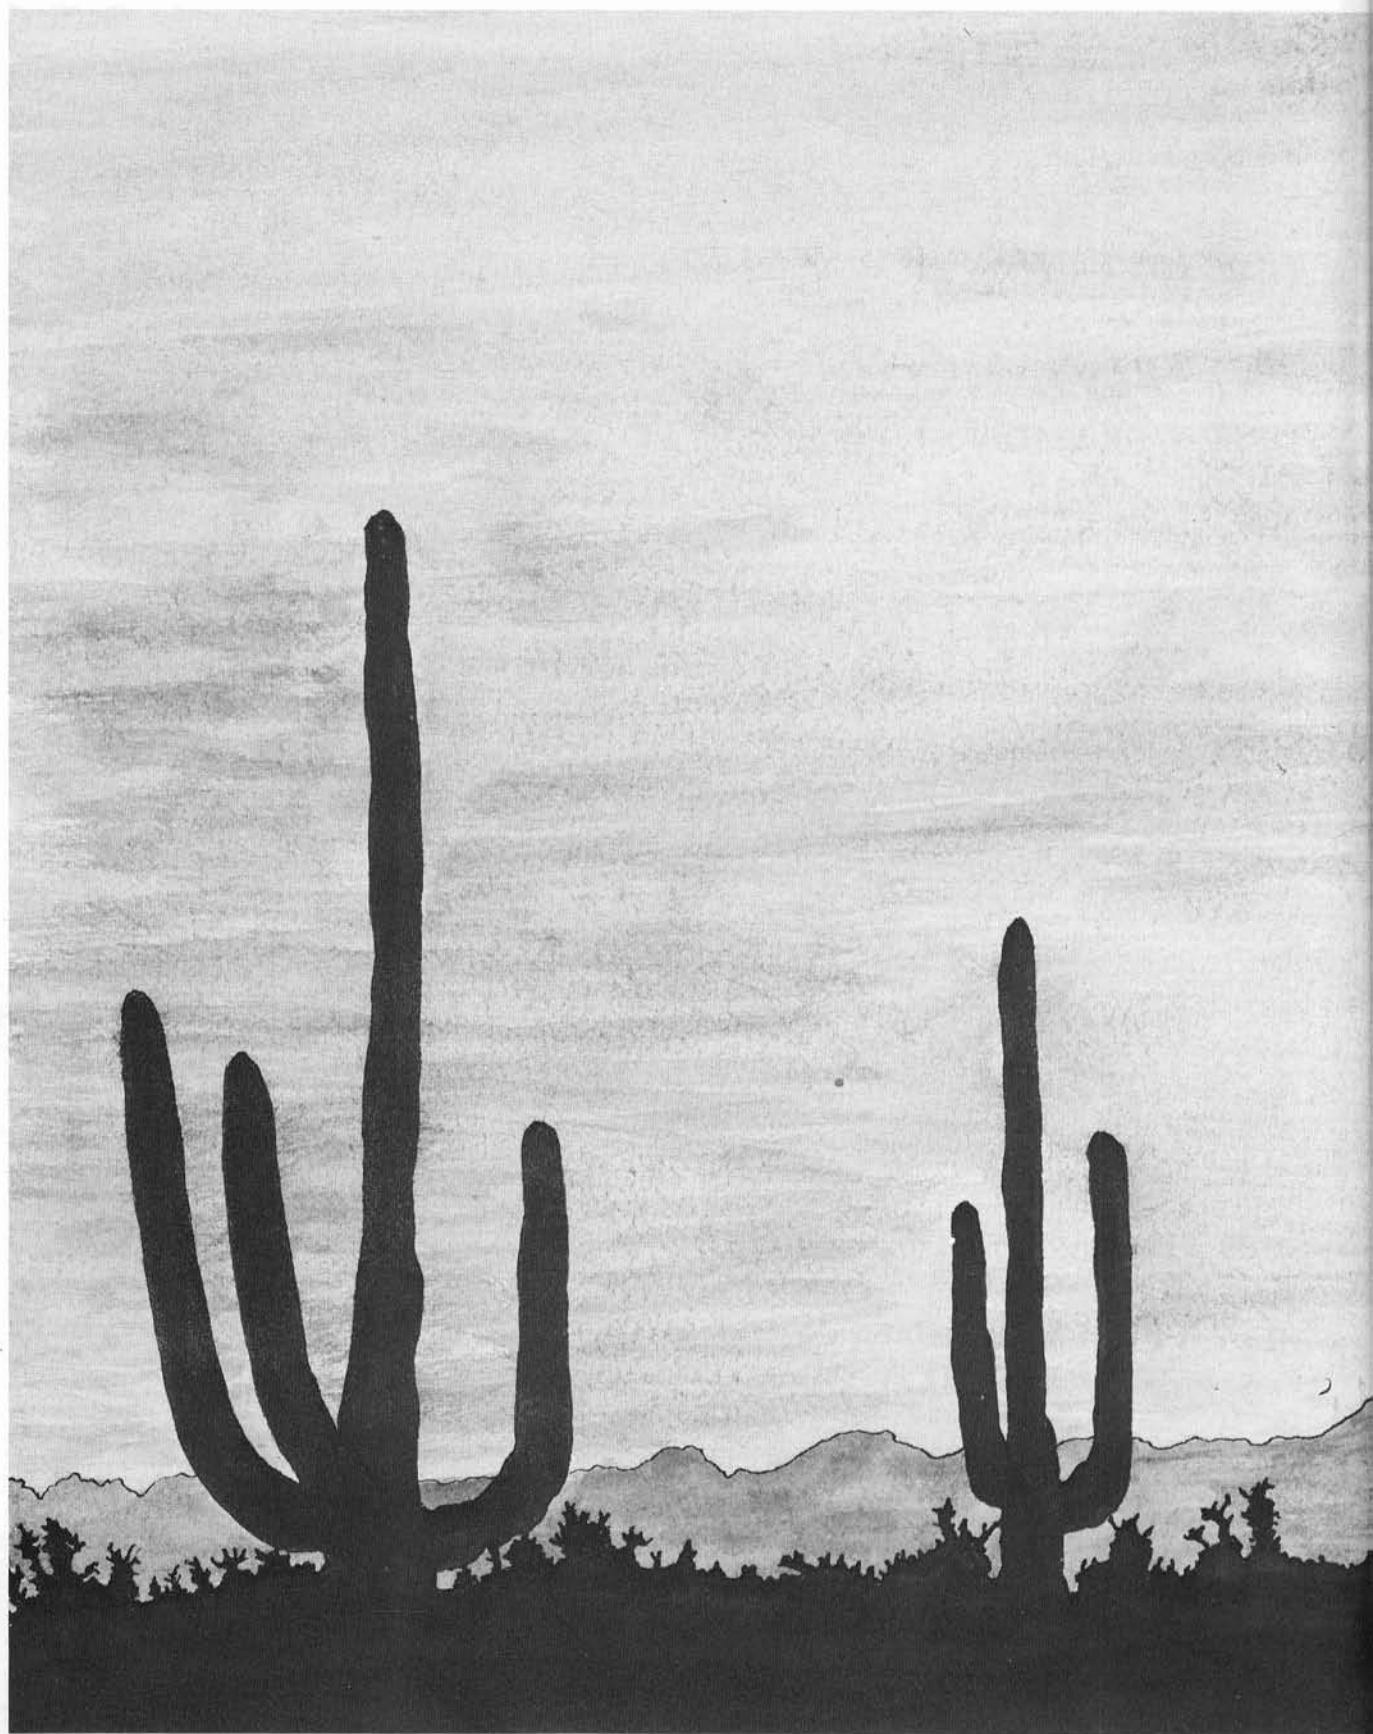

STUDENTS, FACULTY and STAFF of M.H.S.:

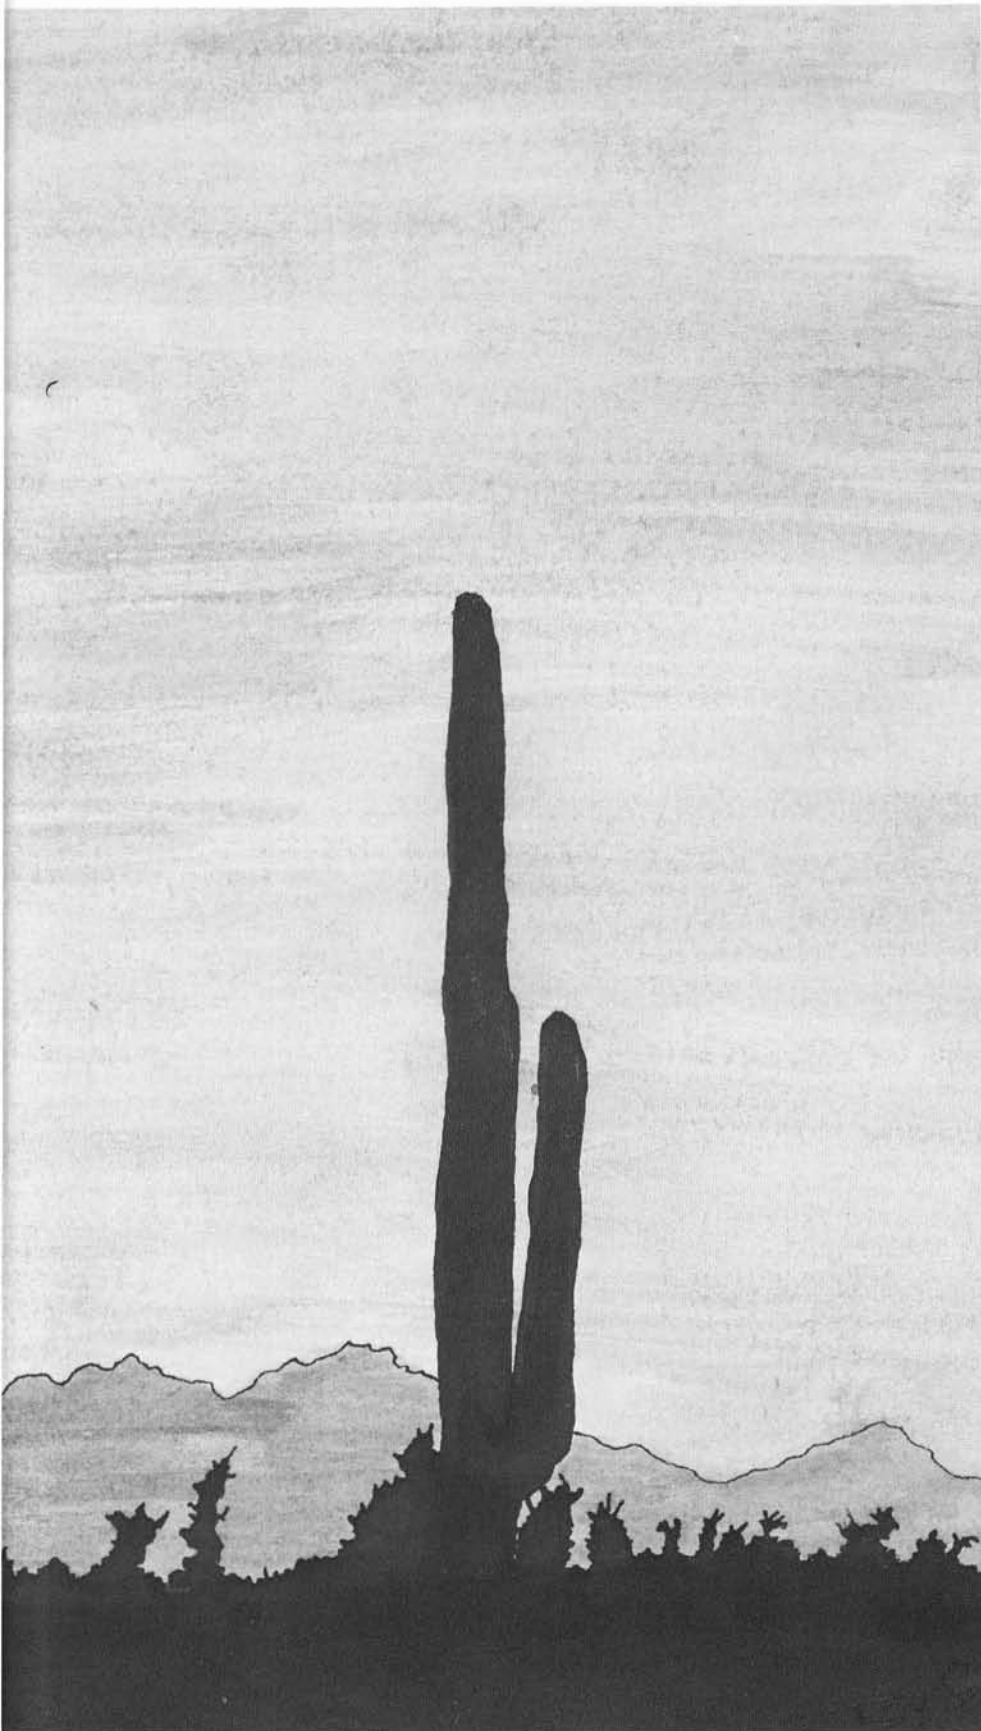

This has been a year of tremendous change for our district. We have had some rewarding experiences and, sometimes, we have had to deal with experiences not so pleasant. Regardless of outcomes, we have all tried to make this year the best possible. As you look through this annual in later years, remember that what you are in the future is, in some small way, a result of your experiences here at Magdalena High School. Best Wishes.

Respectfully,

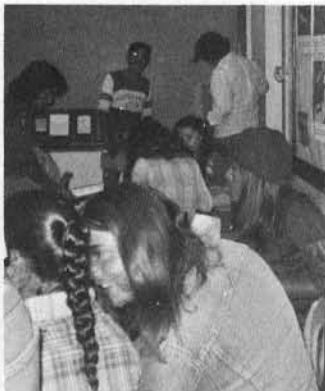

Michael Dickson

ADVERTISING

O.E.A.

The Office Education Association (O.E.A.) is composed of young women enrolled as students in either Junior or Senior Office Procedures.

The Office Education Association benefits member students through: Participation, Socialization, Leadership, Education, Competition, Reward, Cooperation, Understanding, Spirit of Belonging, Confidence, Competence and Recognition. All of these benefits help to insure a better student and a more competent, well adjusted worker of the future.

F.H.A.

The Future Homemakers of America club have two main projects. Helping the elderly is our main concern this year. We have done this by delivering Christmas trees, having a Walk-A-Thon for support of good Sam Nursing Home, and helping to deliver groceries for our older citizens. This year we also held a Valentine cookie sale so that our members could attend the State Convention in March.

The one skill in life everyone needs.

Homemaking is more than cooking and sewing. It is learning how to maintain a family budget, how to protect one's family and home, how to deal with the outside world, how to establish goals within a family and achieve them, how to create a happy home.

Traditionally, the homemaker's role has been thought of as the woman's role. In fact, the stereotype of the woman tied to her apron strings and slaving over a hot stove all day has been with us far too long.

That's changing, now. Slowly to be sure, but changing for the better.

More and more family members are assuming their equal responsibilities as homemakers. Sharing in the home work, in the care and guidance of children, in the establishment of values in the home.

And even where there is just a single person involved, there is still the need for a homemaker's skills.

It's the one thing in life everyone needs to know. How to manage your future.

This message about homemaking is brought to you as a public service by Future Homemakers of America and this publication. For more information, write: Future Homemakers of America, 2010 Massachusetts Ave. NW, Washington, DC 20036.
