LITTLE MUNCHKIN DAYCARE

Dear Parents,

We welcome you and your child to our daycare. This information package has been prepared to introduce you to our centre and share with you our philosophy, policies and procedures. Please read it carefully and keep it for reference.

If you have any questions, please feel free to ask us.

Thank you for choosing us to take care of your child.

THE CENTRE'S BACKGROUND.

Little Munchkin Daycare is a daycare centre which offers full-time and part-time care to families in our community.

STAFF PROFILE

Our child-care staff are trained and certified as Early Childhood Educators and in many cases, as Infant and Toddler Specialists. They maintain valid First Aid and whenever possible Food Safe Certificates. Many of the staff have worked in the child care field for many years. Staffs continuously upgrade their education through workshops, conferences, independent study, and researching topics of interest.

SETTLING YOUR CHILD INTO CARE:

Introduction into long daycare hours can be difficult for children and parents. Children's welfare and happiness are priority for staff when welcoming new children to the centre and assisting families settle into the centre environment. It is recognized that family needs vary greatly in the orientation process and we will strive to meet individual needs as best as possible.

The following outlines some helpful hints for parents on settling their child into care:

- Make sure you familiarize your child with the environment and the people in the environment (children and adults) by coming in for visits before commencing care (ask staff about *gradual transition process*).
- Ease your child into care with short stays in the beginning.

- Provide a favorite toy, blanket or comforter to support your child when they are separating from you. This can help your child feel more secure.
- If your child is unsettled, short visits will help your child gain trust with an unfamiliar environment.
- Interactions between staff and parents or staff and other children will serve as positive role models and provide reassuring experience for your child. This experience will help to establish trust in an unfamiliar setting.
- Try to talk at home about child care. Mention the names of the staff and other children. Talk about the things the child will be able to do at child care that are fun and enjoyable.
- Talk to the staff about your child, for example, what they like to do, foods they like and dislike and ways of settling them to sleep. This helps staff to get to know your child.
- When leaving your child it is best to make sure you say goodbye and then leave. Hesitating and not going after you have said your goodbyes, especially if a child is upset, only confuses them. Reassure your child that everything is alright and you will return later, this can help them settle.
- It is sometimes helpful to establish a routine when leaving. For example, giving your child a cuddle and giving them to a staff member or sitting down with them for a short play or reading a book together then leaving.
- At first some children protest strongly while others may take a day or two to realize that you are leaving them and begin to protest after several days. Children soon learn that you do return and in the mean time they are well cared for.

DAILY ROUTINES

Each room in the centre has a set routine which covers approximate times for activities such as meals, nappy changes, sleep and so on. Routines will vary from time to time according to the needs of the group and individual children.

PHILOSOPHY OF CHILDCARE

Little Munchkin Daycare implements a play-based curriculum model, where children learn through play. Our program incorporates child-initiated free choice and teacher-initiated activities. We offer a wide range of activities (both indoors and outdoors) to enable children to explore the world around them, and are designed to develop cognitive and social skills. Our child-centered approach ensures that each child's unique needs are met. As an extension of the child's home life, our program presents consistent and nurturing care through which children in the early stages of development continue to develop basic sense of security and trust in the world around them.
