Jason Kelly - President

Crisis Advisors

Jason is President of Crisis Advisors – an Emergency Response planning, training, and response company.

- Clients in 18 countries, on 5 continents
- Expert Emergency Response Team
- Crisis Advisors was founded in 2011

Continental Airlines

Jason served as Director of Emergency Management for Continental Airlines for 5 years, with worldwide responsibility for the Emergency Response program. Jason has extensive experience running an Emergency Response Department and Program before, during, and after accidents.

Continental Airlines flight 1404 accident

- December 20, 2008
- Denver, Colorado
- Boeing 737-500
- 115 passengers & crew onboard

The airplane crashed on takeoff and was destroyed by fire. 28 injured passengers and crew members were taken to 4 Denver area hospitals, over 50 care team members deployed to Denver. Jason was the Director of Emergency Management and Go Team Leader and was on-scene for 10 days working with surviving passengers and family members.

Continental Connection flight 3407 accident

- February 12, 2009
- Clarence Center, New York
- Bombardier Q400 operated by ColganAir
- 49 passengers & crew onboard

The airplane crashed into a house, killing all 49 on board, as well as 1 person in the house, with 2 other family members in the house surviving. Over 250 care team members deployed to BUF. Jason was the Director of Emergency Management and the Go Team Leader and was on-scene for 14 days working with family members of the passengers, crew, and ground fatality.
