In compliance with the Drug-Free Workplace Act of 1988, all Carlson College faculty and staff are notified that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited in the workplace. The workplace is defined as the site(s) where the performance of work is done in connection with one's specific employment.

- The dangers of drug abuse in the workplace;
- Carlson College's policy of maintaining a drug-free workplace;

- Faculty and staff development training in substance abuse;
- The penalties that may be imposed for Drug-free Workplace policy violations.

Sanctions for Misconduct for Employees

• In situations where there is reasonable cause to suspect that an employee is in violation of the alcohol and drug policy, an appropriate investigation may be made by the President. If upon completion of the investigation, the employee is found to have violated the policy, that employee can be subject to any one or a combination of the following educational and/or disciplinary sanctions:

- Required attendance at designated staff development or other substance abuse education program.
- Disciplinary action, including reprimand, suspension, or termination.
- All employees have the right to appeal the sanctions to the President of the college. Appeals must be made within five (5) working days of notice of sanctions.

• All employees will notify the President of any criminal drug statute conviction occurring in buildings, facilities, grounds, or property controlled by the college within five (5) working days after such a conviction. The appropriate college official will, in turn, notify the applicable federal agency of the conviction. Appropriate action will be taken within thirty (30) days of the college's notice of conviction or violation of the college's policy on a drug-free workplace.

As a condition of employment, the faculty and staff members agree to abide by the terms outlined in this policy.

Federal, State, and Local Legal Sanctions

The Federal Controlled Substance Act provides penalties of up to 15 years imprisonment and fines of up to \$25,000 for unlawful distribution or possession with intent to distribute narcotics. For unlawful possession of a controlled substance, a person is subject to up to one-year imprisonment and fines up to \$5,000.

An important part of the Controlled Substances Act makes it a federal crime to sell drugs in or near a public or private elementary, secondary, vocational, or post-secondary school. Under this "schoolhouse" law, sales within 1,000 feet of a school are punishable by up to double the sentence that would apply if the sale occurred elsewhere.

Even more serious punishments are available for repeat offenders.

Distribution or sale to minors of controlled substances is also a federal crime. When anyone age 18 or over sells drugs to anyone under 18, the seller runs the risk that he/she will receive up to double the sentence that would apply to a sale to an adult. More serious penalties may be imposed on repeat offenders.

Code 204 of the Iowa law states that it is unlawful for any person to possess, manufacture, distribute or dispense any controlled substance except under certain restrictions. The penalties range from a serious misdemeanor with a penalty of up to six (6) months incarceration and/or \$1,000 fine to a felony with a penalty of up to fifty (50) years, incarceration and/or a one-million dollar fine.

Further information on these federal and state laws will be maintained in the Office of the President and will be available to students and employees. Students and employees are encouraged to obtain copies of this information.

Sexual Assault Prevention and Response

Carlson College provides Students literature and education once a session, and new employees on preventing and reporting domestic violence, dating violence, sexual assault, and stalking.

Carlson College is committed to address sexual misconduct.

Carlson College prohibits domestic violence, dating violence, sexual assault (including non-consensual sexual contact and non-consensual sexual intercourse) sexual harassment and a hostile environment caused by sexual harassment, retaliation, intimidation, sexual exploitation, and stalking.

Definitions

Rape – Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

Awareness program – Programs, initiatives, or campaigns that increase audience knowledge of domestic violence, dating violence, sexual assault, or stalking and share information and resources to prevent interpersonal violence, promote safety, and reduce perpetration. These efforts can include campus community wide mobilizations as well as targeted audience specific programming (including both students and employees) Informational posters or resource websites, and educational programming that focuses on sharing resources and information about these issues are examples of awareness programs.

Bystander Intervention - Safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene in situations of potential harm where there is a risk of domestic violence, dating violence, sexual assault, or stalking against a person other than the individual. Effective bystander intervention training prepares participants to recognize situations of potential harm, overcome barriers to intervening, identify safe and effective intervention options, and act.

Ongoing prevention and awareness programs – Programs that are sustained over time focusing on increasing awareness or understanding of topics relevant to sexual assault, dating violence, domestic violence, and stalking prevention. These programs will occur at different levels throughout the institution (faculty, incoming students) and will utilize a range of strategies. Ongoing awareness and prevention campaigns may include information about what constitutes sexual assault, dating violence, domestic violence, and stalking, changing social norms, enhancing understanding of content. Effective ongoing awareness and prevention programs will include developmentally appropriate content for the specific audience and their knowledge and awareness level and provide positive and concrete ways for individuals to get involved.

Primary prevention programs – Programs, initiatives, and strategies intended to stop domestic violence, dating violence, and stalking before it occurs to prevent initial perpetration or victimization through the promotion of positive and healthy behaviors and beliefs. Efforts to change behavior and social norms, and promote healthy relationships, healthy sexuality, and equal gender roles, or efforts to understand risk factors and protective factors for bystander inaction and change social norms around bystander inaction are all examples of primary prevention.

Risk reduction – Risk reduction refers to approaches that seek to mitigate risk factors that may increase the likelihood of perpetration, victimization, or bystander inaction. Risk reduction focuses on helping individuals and communities address the institutional structures or cultural conditions that facilitate sexual assault, dating violence, domestic violence, and stalking to increase safety. Examples of risk reduction may include but are not limited to general crime prevention education, programs that educate on how to create individual and community safety plans and strategies, and bystander intervention programs that educate the campus on how to recognize and interrupt situations of harm.

Iowa law combines two sections of the criminal code to define domestic violence. The assault code, which defines criminal behavior and the domestic abuse act, which defines a domestic relationship.

Assault, in lay language, is defined as one of the following:

- Physical contact that is insulting or can cause an injury.
- The threat of physical contact and the apparent ability to carry the threat out.
- Using a weapon in a threatening manner.

A domestic relationship is defined as one of the following:

- Two individuals that are married, divorced or separated.
- Two individuals that have lived together at some point in the past year.
- Two individuals that have a child in common, whether they have been married, divorced or living together at some point in the past year.
- Two individuals in an intimate relationship or have been within the past year.

Dating violence is controlling, abusive, and aggressive behavior in a romantic relationship. It can happen in straight or gay relationships. It can include verbal, emotional, physical, or sexual abuse, or a combination.

Sexual assault is an offense classified as:

Any sex act between persons is sexual abuse by either of the persons when the act is performed with the other person in any of the following circumstances:

1. The act is done by force or against the will of the other. If the consent or acquiescence of the other is procured by threats of violence toward any person or if the act is done while the other is under the influence of a drug inducing sleep or is otherwise in a state of unconsciousness, the act is done against the will of the other.
2. Such other person is suffering from a mental defect, or incapacity which precludes giving consent, or lacks the mental capacity to know right and wrong of conduct in sexual matters.
3. Such other person is a child.

What is consent?

Sexual activity requires consent, which is defined as voluntary, positive agreement between the participants to engage in specific sexual activity.

Communicating consent:

- Consent to sexual activity can be communicated in a variety of ways, but one should presume that consent has not been given in the absence of clear, positive agreement.
- Consent is a voluntary agreement to engage in sexual activity.
- Someone who is incapacitated cannot consent.
- Incapacitation (such as due to the use of drugs or alcohol, when a person is asleep or unconscious, or because of an intellectual or other disability that prevents the student to give consent)
- While verbal consent is not an absolute requirement for consensual sexual activity, verbal communication prior to engaging in sex helps to clarify consent. Communicating verbally before engaging in sexual activity is imperative. However potentially awkward it may seem, talking about your own and your partner's sexual desires, needs, and limitations provide a basis for a positive experience.
- Consent must be clear and unambiguous for each participant at every stage of a sexual encounter. The absence of "no" should not be understood to mean there is consent.
- Silence or absence of resistance does not imply consent; consent to engage in sexual activity with one person does not imply consent to engage in sexual activity with another; consent can be withdrawn at any time; and coercion, force, or threat of either invalidates consent.
- A prior relationship does not indicate consent to future activity.
- Past consent does not imply future consent.

Stalking is a repeated course of conduct intended to cause fear of bodily injury or death to you or a member of your immediate household. Stalking is a course of conduct used to maintain contact with, or exercise power and control over, another individual.

Bystander Intervention

A Study conducted at the University of Wisconsin La Cross on bystander intervention concluded that people are more likely to help others under certain conditions.

- Notice the incident. Bystanders must first notice the incident taking place.
- Interpret incident as emergency. Bystanders also need to evaluate the situation and determine whether it is an emergency, or at least one in which someone needs assistance
- Assume responsibility. Another decision bystanders make is whether they should assume responsibility for giving help.
- Attempt to help. Whether this is to help the [person leave the situation, confront a behavior, diffuse a situation, or call for support/security.

Tips for intervening in a situation potentially involving domestic violence, sexual assault, dating violence, or stalking:

- Approach everyone as a friend
- Do not be antagonistic
- Avoid using violence
- Be honest and direct whenever possible
- Recruit help if necessary
- Keep yourself safe
- If things get out of hand or become too serious, contact the police

Risk reduction

Strategies you can use to minimize risk of sexual violence include:

- Trust your gut instinct. If a situation doesn't feel right, just leave.
- Notice when someone doesn't respect your boundaries.
- Most perpetrators of sexual violence will look for vulnerable targets: appear to not be aware of their surroundings, under the influence of alcohol or drugs, isolated from their friends, etc...
- Control access to your home or car by locking your doors and closing windows if they provide easy access.
- Travel in groups when possible.
- Don't be afraid to ask for help in situations where you feel unsafe.

Some warning signs of an abusive personality

- Jealousy
- Controlling behavior
- Quick involvement
- Threatening suicide
- Hypersensitivity
- Verbal abuse
- Threatening violence
- Isolation
- History of battering or sexual violence
- Unrealistic expectations

If you are a victim of domestic violence, sexual assault, dating violence, or stalking at this institution, your first priority should be to get to a place of safety.

If you are a victim of domestic violence, sexual assault, dating violence, or stalking it should be reported in a timely manner for evidence collection and preservation, or in obtaining a protection order.

Carlson College will follow the Jones County Sheriff's Office for standard of evidence.

Physical evidence of a criminal sexual assault must be collected within 72 hours. If you believe you have been a victim of a criminal sexual assault, you should go to St. Lukes Hospital Emergency Room (1026 A Ave NE, Cedar Rapids, IA 52406 – Directly across the street from Greene and Hickok Hall), before washing yourself or your clothing. The Sexual Assault Nurse Examiner (SANE Nurse - a specially trained nurse) at St. Luke's Hospital is on call 24 hours a day, 7 days a week (call the Emergency Room at 319-369-7105 if you first want to speak to the nurse; ER will refer you). In addition, Mercy Hospital in Cedar Rapids and the University of Iowa Hospital and Clinics in Iowa City both have SANE nurses. A victim advocate can also accompany you to the hospital. Victim advocates are available in Cedar Rapids through Riverview Center Sexual Assault Hotline at 1-888-557-0310 (24-hour crisis line), and the Rape Victim Advocacy Program (RVAP) in Iowa City at 1-800-284-7821. Some hospitals may notify the local police when a sexual assault victim seeks emergency room services, but you are not obligated to talk to the police or to prosecute. The exam will help to keep that option open for you, should you decide later to exercise it. The hospital staff will collect evidence, check for injuries, and address the possibility of exposure to sexually transmitted infections. If you have changed clothing since the assault, bring the clothing you had on at the time of the assault with you to the hospital in a clean, sanitary container such as a clean paper grocery bag or wrapped in a clean sheet (plastic containers do not breathe, and may render evidence useless). If you have not changed clothes, bring a change of clothes with you to the hospital, if possible, as they will likely keep the clothes you are wearing as evidence. You can take a support person with you to the hospital, and they can accompany you through the exam, if you want. Do not disturb the crime scene—leave all sheets, towels, etc. that may bear evidence for the police to collect.

Domestic violence, sexual assault, dating violence, or stalking should be reported to the Jones County Sheriff Dept. ph. 319-462-4371 (non-emergencies), dial 9-1-1 (emergencies only).
