Open Water Course Completion Statement

***Please Initial Each Statement if You Agree ***

If you do not agree we will do an additional dive prior to certification. Your certification card will not be issued until this form has been completed with 100% completion of all items.

Initial

_____ I completed a Medical Questionnaire before any in-water training.

_____ I had my own PADI Open Water Diver Manual and used my own dive computer.

_____ I passed written quizzes and a final exam or a knowledge review (if done online)

_____ I learned how to use a dive computer in class

_____ I learned and perfected skills in a pool prior to open water training

_____ At some point prior to certification I completed a:

_____ 200 Yard non-stop surface swim or 300 Yard swim with mask snorkel & fins

_____ 10 Minute float/tread water

_____ In Pool we practiced Equalizing my ears and mask

_____ Finding/locating my regulator and clearing it of water

_____ Breathing underwater without a mask, removing, replacing and clearing my mask of water

_____ Buoyancy Control (such as hovering and the fin pivot)

_____ Out of air/low on air emergency exercise

_____ Disconnecting the hose from your BCD while underwater

_____ I completed 4 separate open water scuba training dives during my course

_____ I made my open water training dives over the course of two days

_____ My first two open water dives were conducted between 15'-60'

___ My last two open water training dives were conducted between 15' -60-

_____ My PADI Instructor observed and evaluated my skills underwater during my
open water training dives

_____ During my open water training I completed the skills listed below:

_____ Remove and replace my mask underwater

_____ Compass navigation at the surface and underwater

_____ Buoyance control (such as hovering and fin pivot)

_____ Remove and replace my weights or weight system at the surface

_____ Alternate air source (octopus) ascent

_____ Performed a tired diver tow

_____ Controlled Emergency Swimming Ascent (CESA)

During this exercise my Instructor held onto me, used a ascent line, ascended with

Me all the way to the surface, and I orally inflated my BCD upon surfacing.
