

APPLICATION FOR IMPBA WORLD RECORD

FAST ELECTRIC INSTRUCTIONS

Please type or print legibly. It is recommended that this application be filled out in duplicate or copied should the original be lost by postal or courier services. It is the responsibility of both the sponsoring club officials and the contestant applying for a record to ensure this application is completely filled out prior to sending to the IMPBA Records Director. Failure to do so will automatically void this application. Review the application upon completion and fill out the following check-off list.

SPONSORING CLUB:

All lines have been completed on Page 2.

CONTESTANT:

All lines have been completed on Page 2 (additional comments optional).
Application has been signed.

TIMES WITNESSED:

There must be 2 different people to verify the time. Each timer or witness must record
The time he/she reads, plus sign and print their name and IMPBA membership
number on page 3.

POWER SPECIFICATIONS:

There must be 2 different people inspect the electric motor(s) for
Technical standards. Each inspector must sign and print their name and IMPBA
membership number on Page 3.

HULL SPECIFICATIONS :

There must be 2 different people inspect the hull for technical standards. Sections A
or B must be completed for all applications, section C through H must also be
completed if applicable. Each inspector must sign and print their name and IMPBA
membership number on Page 5.
