## 2026 Market Year

A person, family, or partnership may join the Buffalo Farmers Market. Our selection committee will verify you meet our requirements and determine which new vendors fit the best in our market. Summer Market is May thru October. The summer season fee is \$125 and is good for the whole season. There is no weekly fee option. An additional \$75 fee is charged for drive up spots. We are non-profit and all fees are for promotion and operation of the market. Members volunteer their time to perform market activities as needed.

All items offered must be grown/raised/made by members and done within a 25-mile radius of the market. The manager may waive this requirement if your product is missing from the market or for other special reasons.
