

Superintendent of Utility Distribution

Department: Public Works – Distribution

Reports To: Director of Public Works

Position Summary

- Under the supervision of the Director of Public Works, the Superintendent of Utility Distribution is a responsible supervisory position in the management of ensuring the safe and efficient distribution of water, electric, gas, stormwater, and street services to the Garnett community. This employee participates in the operation and maintenance of facilities, infrastructure, machinery, and equipment. The Superintendent of Utility Distribution supervises the installation, repair, and maintenance of city streets, sidewalks, and alleyways, along with gas, wastewater, stormwater, and water pipelines.

Examples of Work

- Schedules and supervises work of subordinate personnel;
- Makes recommendations for hiring and discharging of department personnel;
- Sets priorities on job assignments;
- Oversees and provides coverage for vacation schedule;
- Responds to citizen concerns and complaints;
- Prepares and maintains records of work performed;
- Supervises the installation, repair, and maintenance of city streets, sidewalks, and alleyways, along with gas, wastewater, stormwater, and water pipelines;
- Inspects gas, wastewater, and water lines for possible leaks;
- Other related duties as deemed necessary or as required.

Experience

At least three years of supervisory experience in a public works position is preferred. Employee is expected to have acquired the necessary information and skills to perform the job reasonably well after six months in the position.

Education

High school diploma or GED required. Class III Water Treatment and Class II Wastewater Treatment Certifications by the Kansas Department of Health and Environment are preferred. Must have or obtain CDL within 6 months of hire.

Skills

Thorough knowledge and understanding of all federal, state and local laws and regulations governing the gas, wastewater, stormwater, and water utilities and their line installation and maintenance. Thorough knowledge of proper construction and maintenance procedures for equipment, streets, sidewalks, and alleyways. Thorough knowledge of all safety requirements. Good oral and written communication skills. The ability to operate line locators, gas leak survey equipment, odorometer, skidsteer, heavy equipment, and other departmental equipment.

Problem Solving

Frequent problem solving exists in this position. Problems include line sizing, line capacity, gas leaks, determining the cause of problems, developing effective solutions, and handling citizen concerns and complaints.

Decision-Making

Decision making is a factor in this position. Decisions include determining if and where there is a leak in the gas, wastewater, or water lines, prioritizing and scheduling personnel to perform maintenance on the transportation and stormwater systems, gas, wastewater, and water lines, when to perform maintenance on equipment.

Accountability

Employee is responsible for budgetary control of the department and participates in the annual departmental budgetary process.

Supervision

Supervision is required and job-related decisions are occasionally reviewed by the City Manager. Employee has supervisory responsibility over subordinate personnel.

Personal Relations

Continual contact with other city departments and the general public.

Residency

The employee working in this position is required to reside within three miles of the city limits of Garnett.

Physical and Mental Demands

This position requires the employee to work in a fast-paced environment, with the ability to meet frequent deadlines. While performing the duties of this job, the employee must regularly sit, talk, and hear. The employee is frequently required to use hands to touch, handle, or feel. The employee is often required to stand and walk. The employee will be required to occasionally perform a full range of motion with lifting and/or carrying items weighing up to 25 pounds. The mental and physical requirements described here are representative of those that must be met by an individual to successfully perform the essential functions of this position.

Working Environment

Work is performed in a variety of indoor and outdoor settings, active construction sites, and a normal office environment. The employee may be required to perform outdoor field work that may involve exposure to extreme weather conditions, moving machinery or vehicles, hazardous chemicals, natural gas, and infectious diseases. The work environment characteristics described here are representative of those an individual encounters while performing the essential functions of this position.

Salary and Hours

The salary for this position is \$50,000 - \$67,000 with excellent benefits, pay is based off qualifications. This is an exempt position with a 40-hour work week, on-call, and emergency call-outs. The schedule for this position is set by the City Manager and is generally 8-hour days and a 40-hour work week with some overtime as needed.
