

Invisalign Teen Info

Bummed out about having braces?

Invisalign Teen aligners give you a whole new way to wear braces for a “clearly” amazing smile!

I have enough to worry about. . .

. . . now I need braces too?

The team has a game this Friday night, homecoming is in a month, and what about my yearbook pictures?!?!?!? Don't stress; during your Invisalign Teen treatment you won't need to turn down any dates, wear a paper bag over your head, or hide out in your room for two years! Invisalign Teen aligners are a perfect fit for your lifestyle, because aligners are:

- * Clear
- * Removable
- * Super comfortable
- * Customized just for you

Pizza, Popcorn. . . No Problem!

You've probably heard from friends that with braces you won't be able to eat anything. With Invisalign Teen aligners, you can eat whatever you want!

Unlike traditional metal braces, your Invisalign Teen aligners are removable, which means you can go ahead and eat all the things you love without worrying about breaking a bracket or losing a rubber band. Cheers!

It's your life; keep it that way!

Invisalign aligners are really comfortable and very durable. They fit in with any of your extracurricular activities. So whether you're swimming the 50-meter race, throwing the football out on the field, or playing the clarinet with the school band, you don't have to worry about your braces getting in the way!
