Spray Tanning Tip

it is VERY IMPORTANT to wear long, loose fitting pajama pants and a long sleeved loose fitting shirt when sleeping in your spray tan before being able to shower off the initial bronzer. If you do not cover your skin while you sleep, you run the risk of touching your body with your hands and it may rub off, smudge, and become splotchy. It is always a good idea to wear loose fitting pants while your

spray tan is processing. [CLICK HERE](#) to read more spray tanning FAQ'S.
