TENT CATIPILLARS & CANKER WORMS

Council will only be spraying the Village Commons, the Beach, the boat launch parking lot area. It will be each property owners responsibility to eradicate tent caterpillars and canker worms. We encourage you to be proactive with your tree care in early spring. Inspect your trees and spray it with dish soap/water solution, BTK or simply prune out the infested branches to avoid this. Keep in mind that every caterpillar that matures into a moth will lay new eggs for next year. A small inexpensive bottle of BTK is \$11, mixed with water will do up to 30 litres of insect control. Dish soap (no brand preferred) with water works very well, some like to add cayenne pepper and vinegar to the solution also.

STREET PAVING

Council has contracted out CF Asphalt and Skid steer Services to pave Smales Crescent, Mackie Street and Lane, reclaim work in the boat launch parking area, and minor pot hole and street repairs through out the village. Please contact Chris Faubert directly should you be interested in contracting them to do paving while they are in the village 306.551.7757.

NEW VILLAGE WEBSITE

Please visit www.bsaytah.com, our new village website. We were experiencing difficulties with our old website. We plan to link the two sights, if you use the bsaytah.ca one it will eventually take you directly to bsaytah.com.
