This 2nd weight will be used as the sale weight. The animal in question cannot leave the scale area until the scale dispute is settled. If an exhibitor leaves the scale area without registering a protest, the scale weight is considered correct.**

◇ If animals do not make weight, whether over or under, exhibitor may still show their animal in Showmanship but not in Conformation, and may **not** go through the Livestock Auction.

◇ A member may have two (2) animals of the same species in a project and both animals may be ear tagged. However, only one animal may be shown in a market class. At fair check-in, a decision must be made as to which one will be the market animal. Only 1 animal will be weighed, which will be the market animal. The other tagged animal **MAY NOT** replace the animal sifted at the scale, and must leave the premises immediately. Unless also entered as breeding project and entry fees have been turned in by breeding entry deadline.

◇ Check-in is from 3:00-5:00 p.m. on Tuesday April 26th. **All** Animals will arrive at designated times for check-in. Exhibitors must wait in lines to be checked by a vet and weighed before entering barns. You **MUST** be in line by 5:00 p.m.

◇ Original Seasonal Pass must accompany all market animals and be turned in to Livestock Committee at Check-In.

◇ After animals are checked in, there will be a **mandatory** exhibitor meeting at approximately 6:00 p.m. in the large show barn. Exhibitor ID packets will be handed out at that time to all exhibitors.

STALLS/PENS

◇ All animals in the Organized Youth Show must be stalled in the designated stall or pen during the entire Fair. Animals may not be removed from this area. Exhibitors may not switch pens without approval of Livestock Office.

◇ All exhibitors are required to provide their own bedding material. Bedding material must be shavings, straw is no longer allowed. No chemicals shall be used within the livestock pens or barn area. Only plastic or rubber (no paint buckets) can be used in the pens for feed and water as approved by the superintendent. Do not use any wood or metal containers. Unapproved containers are to be removed immediately upon request of the Superintendent.

- ◇ Entries will be stalled by Club or Chapter, and by species.

Project Leaders may instruct/assist a novice exhibitor. First & second infraction of this rule will result in written warning. Third infraction will result in disqualification of exhibitor.**

UNETHICAL FITTING

- ◇ Exhibitors are prohibited from showing unethically fitted livestock or livestock of an ineligible age for exhibition. Unethical fitting is any method altering the natural contour, conformation, or appearance of any part of the animal's body. This includes, but is not limited to, surgery, injection, or insertion of foreign material under the skin and/or flesh of an animal. Animals will be disqualified, if in the opinion of the Judge or Fair Management, the animal displays signs of having been operated on or tampered with to conceal faults in conformation or to misrepresent the soundness of the animal.
- ◇ No change to the major color pattern of the animal will be allowed, including painting or dying. Other than dressing the hooves, no grooming material that allows color to come off of the animal will be allowed (i.e. touch-up paint on animal's hair). Exhibitors may use adhesive to build up their animal's natural hair on their legs and tail head, they may cover the adhesive residue with the animal's natural color paint but ONLY on the animal's legs and tail head. Oils for swine must be a non-colored livestock product, and must be labeled for livestock use. Violations will result in disqualification of the animal.
- ◇ Exhibitors are permitted to use adhesive and show sheen or like substance in moderation, to fit their animal.
- ◇ No drenching or otherwise filling of the animals by any artificial means will be allowed.
- ◇ The Verde Valley Fair Association does not advocate the holding of feed and/or water by an exhibitor in order for their project animal to achieve a weight requirement.
- ◇ The use of inhumane fitting and/or handling practices or devices shall not be tolerated. Examples are, but are not limited to, striking of the animals to cause swelling, lacerations, or breaking of any body part.

SECURITY

- ◇ Livestock barns will be locked, with no access available between the hours of 10:00 p.m. and 6:00 a.m. This will begin the evening of check-in and continue through the Fair. Livestock barns will be locked at 5:00 p.m. Sunday for market animal removal.
- ◇ When animal barns are closed for any reason, **ALL PARENTS, LEADERS, AND VISITORS ARE REQUIRED TO LEAVE THE CLOSED AREA. ALL ANIMALS MUST ENTER BARN THROUGH LANES.**

SIFTING

- ◇ The Fair Livestock Committee may sift animals at any time for inferior quality and excessive shrinkage even though the animal made weight. Animals considered uncontrollable will be sifted immediately by the Fair Livestock Committee.
- ◇ At the time of judging, animals may be sifted by the judge for type, quality and finish. The decision of the judge will be final.
- ◇ When an animal is ear-tagged and is subsequently sifted for a medical reason, the member will have 15 days to find a replacement animal or correct the medical problem. No replacement animals will be allowed unless they are sifted at ear tagging, this includes loss because of injury or death.
- ◇ See Livestock Health Rules section for more information on sifting of animals during Fair.
- ◇ If animal is sifted, the animal is required to leave immediately.

SHOW RING

- ◇ Show numbers must be worn on the exhibitors back while showing animals in the ring including the auction. Show numbers are provided.
- ◇ Animals bearing (but not limited to) graffiti, glitter, ribbons, bows, and articles of clothing, will not be allowed in the Show Ring.
- ◇ Exhibitors must show their own animal in the show ring.
- ◇ Exhibitors must wear official club clothing in the Show ring.

No tennis shoes, t-shirts or hats will be allowed. **All** exhibitors showing in Dairy are required to wear “Show Whites”. - ◇ All market animals entered will be subject to testing for any foreign substance including drugs, chemicals or feed additives.
- ◇ When an exhibitor, parent, guardian, or leader completes the online entry form, they are granting permission to the Verde Valley Fair to test the exhibitor's animal(s).
- ◇ Test samples must be free of any identifiable or unidentifiable foreign substance, including drugs, chemicals or feed additives, unless otherwise established as permissible by the United States Department of Agriculture (USDA) or Food and Drug Administration (FDA).
- ◇ Animals that test positive for an unapproved foreign substance, including drugs, chemicals or feed additives, will be disqualified and ineligible for premiums or sale proceeds. The disqualified animal's carcass will be disposed of.
- ◇ If an animal is disqualified, changes will be made to the placing of other animals. The owner of the disqualified animal, their leader, and his/her immediate family members may be reported to the North American Livestock Show and Rodeo Managers' Association Rule Infraction Database.
- ◇ The individual(s) responsible for the action causing disqualification will be barred from competing in any future Verde Valley Fair Livestock Shows.

MARKET LIVESTOCK QUALITY ASSURANCE

- ◇ All exhibitors of market animals must comply with the USDA Wholesome Meat Act, the National Code of Show Ring Ethics and the Wholesome Assurance Statement as published herein. Health Regulations of the US Department of Agriculture require that animals treated with drugs, pesticides or any other chemical must go through the prescribed withdrawal period as listed on the label. Therefore, it is important that exhibitors determine the type of treatments used if the animals must be dipped or treated prior to leaving the point of origin.
- ◇ All exhibitors with animals going through the auction will be required to attend Quality Assurance Training, or be current with certification. Certification must be completed annually.

USDA WHOLESOME MEAT ACT

- ◇ The US Department of Agriculture Wholesome Meat Act applies to the sale of market livestock sold during the Verde Valley Fair as follows:
 - ◆ Animals must be in good health and carcasses free of drug or chemical residues.
 - ◆ Antibiotics and sulfonamides have required withdrawal periods.
 - ◆ Before administering antibiotics and/or sulfonamides, consult a licensed practicing veterinarian, or label directions of the drug.
 - ◆ Drug label directions for use and withdrawal periods must be followed.
 - ◆ If drug or other chemical residues are found in tissue of carcasses, the entire carcass will be condemned.
 - ◆ If drug or other chemical residues are found in the urine, blood or tissue of carcasses of animals sold through sale or sales connected with the Verde Valley Fair, the Fair will in no way be liable or responsible for condition of carcass or sale price of animal. Exhibitor will forfeit all rights to the sale proceeds.

WHOLESOME ASSURANCE STATEMENT

The use of animal drugs or other substances by non-veterinarians in any manner other than in accordance with the labeling approved by FDA, is a violation of federal law. Food animals must not exceed FDA/EPA/USDA established tolerances for any foreign substance including drugs, pesticides, feed additives, or other chemicals. Violation results of residue testing are subject to investigation by USDA and FDA for prosecution. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.

* Note: Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.

PLEASE CONSULT YOUR PROJECT LEADER IF YOU DO NOT UNDERSTAND ANY OF THESE STATEMENTS

LIVESTOCK HEALTH RULES

- ◇ The Verde Valley Fair Livestock Committee is in charge of sanitary conditions, and livestock buildings. If a question arises as to the health of the animal, a Fair Livestock Committee decision will be made. This includes deformed and injured animals. Under no circumstances will the Fair Livestock Committee be held liable for such removal. BUYER AND SPONSOR THANK YOU PROCEDURES

The money the youth receive from sales at the auction is often in excess of fair market value because members of the community typically wish to reward and recognize the efforts of young people who raise these animals within an educational setting. In return, the public expects to receive a wholesome product and recognition for their purchase.

It is your responsibility to thank your buyer for purchasing your animal. The annual support of the buyers makes the Verde Valley Fair a success. Taking time to thank your buyer is an important part of the process. All exhibitors are required to purchase a buyer's plaque to thank them. \$25.00 will be taken from exhibitor's auction proceed check to cover the cost. The Verde Valley Fair Livestock Committee will distribute the plaques to the Buyers.

The Verde Valley Fair expects all exhibitors to personally thank their buyers with a thank you letter as well.

Thank you letters need to be turned into leaders to proofread, then leaders will turn them into the Fair office. Leaders will be required to submit all letters received from exhibitors to the Fair Office by May 29, 2022.

- ◇ Auction proceed checks will be paid within thirty (30) days from the date of the auction; providing thank you letter procedures have been met properly, and the letter has been approved.
- ◇ Age appropriate thank you letter must be written to your buyer(s) and add on donors.
- ◇ Unsealed envelope addressed to the buyer(s) and add on donors with proper postage.
- ◇ Thank You letter should be written in acceptable format (see your leader if you have questions). If you choose to buy a thank you card, there must be an additional letter inside the card to thank your buyer.
- ◇ A self-addressed stamped business size envelope for exhibitor to have check mailed to them needs to accompany thank you letter.
- ◇ When the fair office receives **and approves** the thank you letter, it will be mailed to the buyer. The check will then be sent to the exhibitor in their self-addressed stamped envelope. If the thank you letter is not appropriate, it will be returned to the exhibitor and must be re-written and returned to the fair office. All exhibitors must remember to follow the Thank You Letter procedure properly and completely, otherwise checks will not be sent until the process is completed. If the Fair office has not received the exhibitor's thank you letter and envelopes within thirty (30) days of the auction, the exhibitor's auction proceeds will be held until approved letter is received. Exhibitors have 7 calendar days from the day they are notified that their letter was rejected to re-submit a new approved letter to the office, if the letter is not received the exhibitor will forfeit their right to show the next years fair.

- ◇ Exhibitors who fail to turn in an approved Thank-You letter, with-in 30 days from Auction, forfeit their right to sell at the following years auction.
- ◇ Thank you letters to all sponsors of the trophies and buckles, are also required to be written by those exhibitors who receive such awards. Trophy and buckle winners will have a sticker attached that has the sponsor's name and address in order to fulfill the thank you letter obligation.

AUCTION PROCEED CHECKS

- ◇ Exhibitors are not paid for animals sold at the Auction until debts to the Verde Valley Fair Association, Inc. incurred by immediate family members, i.e. spouses, father, mother, sister(s), brother(s), and grandparents are paid in full.
- ◇ Exhibitors are not paid for their animals by The Verde Valley Fair until all funds have been collected from the Auction Buyers.

There will be a seven (7%) percent commission deducted from the total proceeds (to defray expenses for judges, auctioneers, water, electricity, etc.) when market animals are sold through the Verde Valley Fair Livestock Auction. There will be a seven (7%) percent commission deducted from the add-on's.

NATIONAL SHOW RING CODE OF ETHICS
As adopted by the Verde Valley Fair Association, Inc.

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to organized youth class exhibitors who compete in structured classes of competition. This code applies to all organized youth livestock offered in any event at a livestock show. In addition to the “National Code of Show Ring Ethics,” fairs and livestock shows have rules and regulations which they impose on the local, county, provincial and national levels.

All youth leaders working with organized youth exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example.

Exhibitors and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the Verde Valley Fair Association, Inc.. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of policies for all organized youth exhibitors and all organized youth livestock in competitive events:

- ◇ All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age or any facts relating thereto is prohibited.
- ◇ Exhibitors or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- ◇ Organized youth exhibitors are expected to care for and groom their animals while at the Verde Valley Fair. Project Leaders may instruct/assist a novice exhibitor.
- ◇ Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in the Verde Valley Fair is the giving of consent by the exhibitor and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal’s performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood or other samples taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the exhibitor or absolutely responsible person to prove otherwise.

- ◇ At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian only.
- ◇ The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- ◇ Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- ◇ Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- ◇ No exhibitor or absolutely responsible person shall conspire with another person or persons to intentionally violate this Code of Ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this Code of Ethics. Violation of this rule shall subject such individual to disciplinary action.
- ◇ The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an exhibitor or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics.
- ◇ The act of entering an animal is the giving of consent by the exhibitor or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any

other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be shared with other fairs, livestock shows and organizations of fairs or livestock shows.

- ◇ The act of entering an animal in a fair or livestock show is the giving of verification by the exhibitor or absolutely responsible person that he or she has read this National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by this code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
