

## Who Wants an Apostolic Magazine?

From over this broad land everywhere has gone up a plea for an up-to-date paper, reaching us at least once a week, and teaching the original Apostolic doctrines, as found in the Bible and enunciated throughout the movement by Charles F. Parham. False teachers have come into the movement, and in places where the people know nothing of the original teachings of Parham, the most damnable heresies are foisted upon them as Apostolic doctrine. Many others are controlled by fanatical demons and perpetrate disgusting orgies inclined to disgust conservative people, and bring ill repute upon the cause. Friends may see from this that certainly the time is ripe for a periodical along these lines, and we feel that now God will answer the prayers of many in this direction. Of course this vast work must be done through contributions, and several thousands of dollars will be necessary. Bro. Parham's plant, upon which this paper is published, is inadequate for a publication of the character demanded, although large enough for printing small booklets, pamphlets and tracts, according to its intended use.

What we need now is a neat, correctly gotten up paper in magazine form, on good stock, with sufficient mechanical beauty to attract the respect that this movement merits. In it we desire to publish once a week a short sermon from Brother Parham, will also contain correspondence department, editorial department, a Question Box, and will constitute a general headquarters for the publication and distribution of religious tracts. In it also may be printed all matters pertaining to the real true Apostolic Faith movement, comprising a Bureau of Information and Compendium of Doctrines that will prove a soul feast to all of God's sheep and lambs the world over. That such a paper is a vital necessity, is apparent to all. The question is how many dollars' worth do you want it?

A man has offered himself for the work, if you want him, who has had over thirty years' experience in the printing business, and who has no other purpose than to do what God wants, that souls may be saved. Said individual knows of first-class printing machinery which may be bought at a very small percentage of original cost if bought within a short time. Decide quickly, events are moving rapidly, and we must keep pace to accomplish anything for Jesus before he returns to earth again. "What thou doest, do quickly." Who will start this thing off with \$1000 or even \$500?

Send in contributions at once to Charles F. Parham, Baxter Kansas, in order to take advantage of unparalleled opportunities. Also all those who cannot contribute may write and tell how many copies they can subscribe and pay for, the object being to create a fund from which God's worthy poor may be fed without cost to them. Anyway write and tell us what you think of the move, anyway, and give to God as He has prospered you. This is a great innovation in the Apostolic Faith movement, and is destined to become a power for great good in the cause of Christ our King. Do you want to help in sending this message to the world? Then let us hear from you. Send all communications to Chas. F. Parham, Baxter, Kansas.
