

STATE OF AMELIA

Amelia Village has had another great year.

Area Residents have continued to show tremendous support for businesses in Amelia Village. The Dollar Tree is still getting numbers beyond their expectations and the Kroger Marketplace has not slowed down one bit since they opened. Kroger continues to draw customers, which in turn, keeps other businesses with a steady flow of consumers to their stores.

Building of new homes in Amelia Village is on the rise. Amelia Park, Woodside Park and Kline Station will soon be home to new residents. We welcome them as more people are moving to the east side of Cincinnati and it looks like this trend will continue.

After a long wait, the Premier Project is scheduled to break ground this spring. Many projects like these take 2 to 3 years to come to fruition. Once Premier opens, it hopes to bring 150 to 200 new jobs here in Amelia Village.

In 2018 a much needed earnings tax was passed by Council. This will enable the Village to do road repairs and general maintenance projects which will lead to a better quality of life for our residents.

Our zoning permits were up with a total of 134 permits issued for various projects. The total income brought in for permits in 2018 was \$68,250.00.

Amelia Village had another good year in 2018 and the way the Village is growing, City status is in our future. We will continue to grow in all aspects for the future of Amelia Village, its businesses and the residents in 2019.
