Botanical Gardens

THE CACTUS GARDENS' 10 YEAR OLD AGAVE - HIT BY BEETLE INFESTATION

Much to the distress of Tony Joneck, Chair of the Cactus Garden, the Agave had to go. It was a week long project, researching how to remove, what treatment plan and where to place the infected Agave once removed. Thanks to Tony's horticulture background and UF/IFAS St Lucie County Master Gardeners assistance we were able to get it done.

Removing a 10 year old Agave is no easy feat and it took quite a few volunteers to remove, treat, bag and bring to trash. The Agave weighing close to 150-200 pounds didn't want to come out. It had to be cut piece by piece, shoveled, hacked and sawed out. Wow! What a Day.

Newsletter . . .

Editor & Design: Mark Barnes

The Gardens is managed and operated by Friends of the Port St. Lucie Botanical Gardens, Inc., a non-profit 501(c)(3) public charity organization, that was founded to help support the daily operations of The Gardens. Friends volunteers provide hands-on daily oversight of the facility, including staffing to handle the many visitors year round. Please consider becoming a member of Friends. Friends' is a 100% volunteer organization. In all cases, donations are deductible to the extent allowed by law.

PRESIDENT'S MESSAGE...

September!

Back to school; end of summer but still hot and humid in South Florida. Our Gardens have thoroughly enjoyed the summer heat and humidity – they're tropicals, after all!

Colorful blooms, heavenly fragrances and active critters and insects – all call these Gardens their home. The Gardens' crew of volunteers are working on new projects, new events for the upcoming year. Plan today to stop and visit soon.

Thank you.

Joleen King
 President

Port Saint Lucie, FL 34952
772.337.1959

www.PSLBG.org
info@pslbotanicalgardens.org

Attention: all Civic groups, garden societies, homeowners associations, local businesses, et al. Join the Friends of the Port St. Lucie Botanical Gardens this Halloween for a public "Trick or Treat" among the trees. We need your organization to join us in this fun 2.5 hours of welcoming the Ghouls and Goblins of Port St Lucie for our Trick or Treat Ramble and Haunted Hayrides* at The Gardens in a safe, controlled, no-cars atmosphere.

*Scary for young children, parental discretion advised.

Who's invited? Children, ages 0-13, in costume and their parents. **No admission - this is a free event.**

Trick or Treat Ramble in The Gardens

THURSDAY • OCTOBER 31, 2019

What does your group have to do? Claim your assigned "fright Site" in the Gardens, set up a table, decorate as much as you'd like, staff your location with costumed volunteers who enjoy (and perhaps miss) the joy of Halloween and the costume parade we all remember from Halloweens past. **And bring lots of candy! Your organization will be responsible for having sufficient candy, snacks or treats for up to 4000 little ghouls and goblins.**

Your area in the Garden is **FREE**. Your group must supply their own table and decorations.

Are you an HOA, 55 and older? Miss seeing the children? Are you a City Department that would like to adopt a site to be manned by co-workers? A garden society of retired grandparents whose grandchildren are miles away, and are missed? Are you a local business that recognizes an opportunity for team building and community outreach? A civic group or club, looking for a fun, simple new event on your Fall calendar? This is an event for you!

Trick or treating will begin at 4:30 and end at 7:00 pm. Parents, accompanying their children will be required. No children without parents will be allowed on Garden property. Sunset on October 31st is 6:38 pm in Port St Lucie FYI. This is designed to be an evening/twilight event.

Please give this opportunity your attention; talk with friends and neighbors, decide to commit to this new Community event, and send us your commitment via email. Event will be advertised through the Gardens website & newsletter, on-line calendars, community radio and more.

For more Information, to become a Sponsor or to Register, please call Heather Furnari at 772.337.1959.

Things you should consider when removing any cactus:

- Wear long sleeved shirts, pants, goggles and heavy gloves.
- Do not let the cactus touch your skin especially the cut pieces. This can cause irritation and a rash much like poison ivy or sumac, with painful itching and bumps all over the infected area.
- Be prepared for some heavy lifting and lots of perseverance.

When you visit the Cactus Garden you'll see a big empty space, treated and waiting for a fountain to be installed.

Click [HERE](#) to see the video of Tony (pictured below) talking about the Agave beetle infestation. Be sure to stop by our spectacular Cactus Garden.

Tony Joneck, Chair of the Cactus Garden starts the process of removing the beetle infested Agave

Pulling, Pushing & Digging

Is Dale Johnson pulling or riding the Agave?

Finally removed. You can see the beetle in the photo

The Agave root ball

**Job
well
done!**

Treating and bagging

'Tout fini' - Finished

Oh! Oh! - Tony is itching

Tony's Agave rash—Next time it's long sleeves and gloves

Thanks to the **TEAM** who worked so hard to get this done.

CALL FOR IMAGES

Due to the success of our branded 'Photo taken at the Port St. Lucie Botanical Gardens', we are in need of donated images from our members or others who have taken outstanding photos at The Gardens. Selected photographs will be used in our Postcard and Card Series for our Gift Shop and on our website sideshow.

If you are interested in donating a photo or two or three, please include hi-res photos together with your full name and the date the photo was taken. Please email to info@pslbg.org, Attn: **CALL FOR IMAGES**.

Copyright credit will be given to the photographer. Friends of the Port St. Lucie Botanical Gardens, Inc. is a recognized 501 (c) (3) not-for-profit organization. All donations are tax deductible to the extent allowed by law.

Thank You too all who are donating such wonderful plants to the Garden. This helps our bottom line tremendously.

Remember NO INVASIVES and please leave the name of the plant and your name. We're always looking for one gallon pots and other garden related. Items.

Thank You to Bernie McCrary for this lovely jade plant.

THE GARDENS RECEIVES GIRL SCOUTS COMMUNITY AWARD

Port St Lucie Botanical Gardens received a Community Award from the Girl Scouts of Southeast Florida - In grateful recognition of your dedication and contribution to building girls of courage, confidence and character who make the world a better place.

Summer Campers' visit the PSL Botanical Gardens

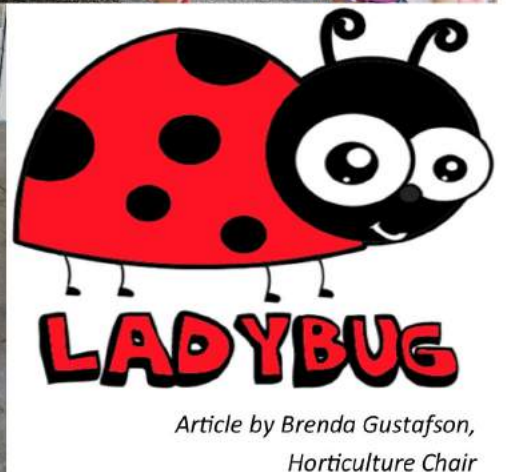

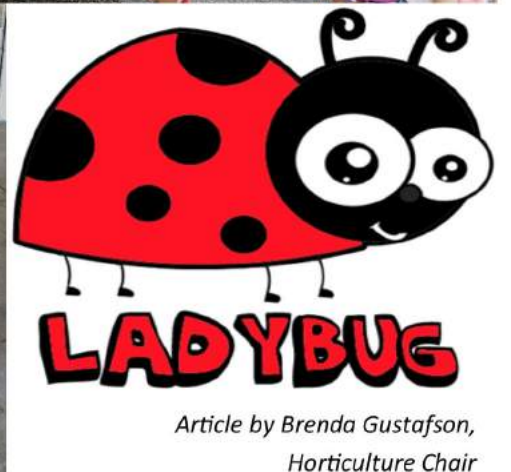

The Gardens hosted over 250 children and 150 adults this Summer. There were tours, butterfly and propagation activities and the enjoyment of learning about our fantastic garden. Children are our future and its important that on their journey they are exposed to Horticulture practices and have fun too.

University of Florida IFAS Extension Central Florida Gardening Calendar - September

What to Plant

Annuals/Bedding plants: If summer beds need refreshing, try scarlet sage, nasturtium, celosia, and wax begonia for color into fall. **See** *Annuals*: http://edis.ifas.ufl.edu/topic_annual_landscape_plants

Bulbs: Plant gladiolus every 2 weeks to stagger blooming. Stake each plant. **See** *Bulbs for Florida*: http://edis.ifas.ufl.edu/topic_bulbous_flowers

Herbs: Plant herbs that tolerate the warm temperatures of early fall, such as Mexican tarragon, mint, rosemary, and basil. **See** *Herbs*: http://edis.ifas.ufl.edu/topic_herbs

Vegetables: September opens the door for more vegetables to plant. **See** *Vegetable Gardening in Florida*: http://edis.ifas.ufl.edu/topic_vegetable_gardening

Shrubs: Consider placing native shrubs, like beautyberry, marlberry, firebush, and dahoon holly, where you can view the birds that enjoy them. **See** *The Florida-Friendly Landscaping™ Guide to Plant Selection and Landscape Design*: https://ffl.ifas.ufl.edu/pdf/FYN_Plant_Selection_Guide_2015.pdf and *Shrubs*: http://edis.ifas.ufl.edu/topic_shrubs

What to Do

Lawns: Continue to monitor the lawn for signs of insect damage. Fall armyworms, chinch bugs, mole crickets, and sod webworms are still active this month. **See** *Turfgrass Pest Insects*: http://edis.ifas.ufl.edu/topic_turf_pest_insects

Fertilizer Bans: Numerous municipalities in south Florida prohibit the application of fertilizer to lawns and/or landscape plants during the summer rainy season (June–September). See if such an ordinance exists in your area.

Vegetable gardens: Prepare the fall vegetable garden if not done in August. Using transplants from your local garden center will get the garden off to a fast start, but seeds provide a wider variety from which to choose. **See** *Vegetable Gardening in Florida*: http://edis.ifas.ufl.edu/topic_vegetable_gardening

Perennials and bulbs: Divide and replant perennials and bulbs that have grown too large or need rejuvenation. Add organic matter to planting beds and monitor water needs during establishment. **See** *Seeds and Propagation (Lawn and Garden)*: http://edis.ifas.ufl.edu/topic_garden_propagation

Irrigation: Check that irrigation systems are providing good coverage and operating properly before summer rains taper off. **See** *Landscape Irrigation*: http://edis.ifas.ufl.edu/topic_landscape_irrigation

Citrus: Fertilize citrus with a balanced fertilizer either this month or in October. Use controlled-release nitrogen because rain will not leach it from the soil too quickly. **See** *Home Citrus Culture*: http://edis.ifas.ufl.edu/topic_citrus_home_citrus_culture

WHAT'S FLOWERING in Florida?
