

THE ART OF 5-12 CUSTOM CAKES

Custom cakes at 5-12 Dessert Boutique & Lounge aren't like your traditional celebration sheet cake at your local grocery store. They are edible works of art with a WOW factor that don't just taste great...they're a conversation piece.

Our custom cakes are uniquely created and designed to fit the vision of each individual client. Since they are baked with the highest quality ingredients, designed and created with great skill and detail, and can be complex and very labor intensive, the cost is higher than your traditional celebration cake.

Custom cake prices vary depending on style, flavor, finish, size, and complexity. Cakes covered with fondant, filled with certain fillings, decorated with fondant accents and sugar work design elements, or with detailed art and piping are an additional cost. Delivery is also an additional charge.

It's helpful to know what you want in a custom cake (style, design, size, # of servings, etc.) before you call to place an order. Researching online or searching images on Pinterest is a good place to start. If you're still unsure that's fine too...that's what we're here for!!

It's also important to know what you're willing to spend before calling to place an order. If cost is a concern, we are more than willing to work within your budget and make technique selection suggestions/alternatives that will work best for each individual client. We encourage you to contact us to discuss options and details.
