

QUALITY FLOW, INC.

Better Water. Better Business.®

Capability Statement

We earned our industry reputation as “the water people.”

Quality Flow, Inc. has been in the water treatment business since 1984, addressing the importance of water quality in food and beverage safety. We are recognized specialists and consultants in all aspects of water quality from setting standards, testing water supplies, identifying and supplying treatment options and overseeing ongoing water quality control. We also back everything we sell with our vast water and treatment expertise. As a Quality Flow customer, you can tap into our knowledge and experience to answer your questions and make recommendations on treatment options that combine state-of-the-art science, long service life and practical value. Not only do we have the expertise to accurately diagnose any problems with your water, our experienced staff is Water Quality Association-trained and can prescribe the most practical and cost-effective solutions. Quality Flow can recommend and provide the treatment equipment and ongoing support that’s optimal for your particular business applications. At Quality Flow, making the sale is just the first step in our continuing commitment to our customers’ complete satisfaction.
