

Bowl from a Cube Turned on a Bias

Materials:

4 inch Cube of wood, kiln dried, seasoned or green (4 to 6 inch).

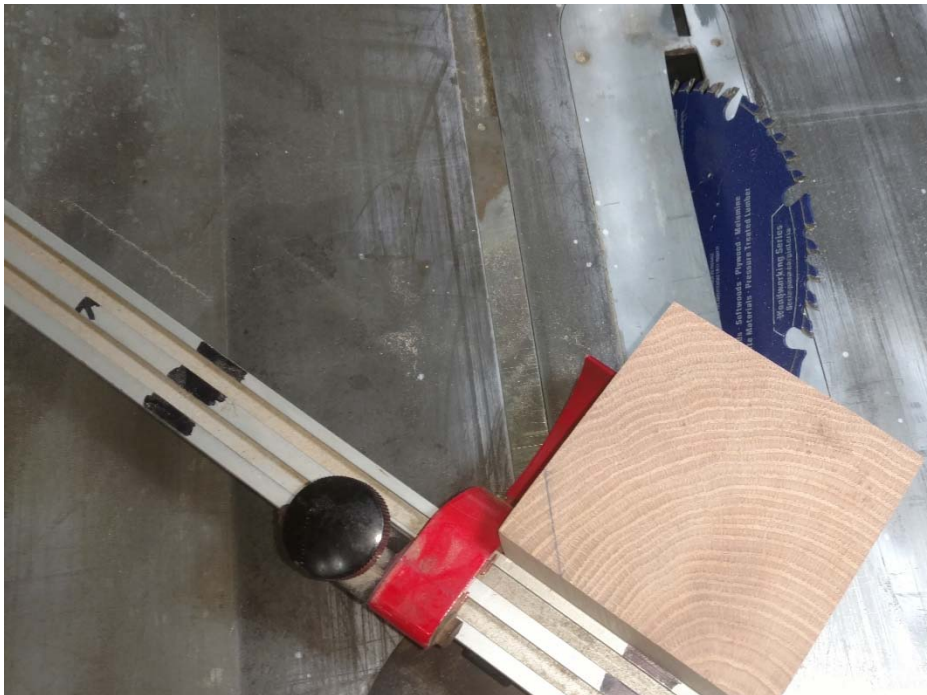

On 1 corner mark 1 inch up on both sides of all 3 edges with a pencil. Join all marks (should make a pyramid).

On opposite corner mark the cube as stated above.

Table saw method: See picture below

Set table saw miter to 45 degrees, set blade angle to 36 degrees. Cut off with table saw.

Alternate methods band saw, wood chisel, coping saw.

Tools: Chuck, Drive Center, Live Center, Center Finder, Ruler, Jam Chuck, Gouges, Saw
