From Your Florida District Directors Fred and Karen Kennedy (FL1-D, FL1-E2)

Greetings All!!!

How is everybody doing now that May is finally upon us? We plan on lots of riding this month. As I write this, we have traveled to Johnson City, Tennessee to attend the EWMA Tennessee District Rally. The theme for this year's "Spring Fling" is *Banjos & Barbecue*. We are excited to be able to attend and especially to have the ability to ride our trike here; because, as you know, we just recently got it back after some major repairs. The venue is very nice and the company of so many of our EWMA Friends is just awesome! My mouth is watering for some delicious BBQ! It's been a couple of years since we've attended Tennessee's rally, but we are super glad we made it this year, because we're really having a great time! I've posted a

few pics on the District's Facebook Page, but there's no way that I could have documented all the events and happenings going on. I especially enjoyed a group of young Cloggers as they entertained us with their skills. They actually got the crowd involved! I'll have more Tennessee rally news in the next issue, as I am up against a deadline to have this article in, but this evening's dinner has me very excited... more to come...

Our next great adventure will begin in just a couple of weeks, as will be traveling to the South Carolina District Rally in Newberry, SC, on May 17th-18th. This year's theme is "*Hometown USA Red, White & Blue*". Newberry is a typical southern town, with all the charm and a very walkable shopping area and was rated by the Travel Channel as, "One of the most charming small towns in America". Having never been to Newberry, we can't wait to enjoy the rally and the surrounding area.

Have you seen the new "Recruiting Rockstar Challenge"? This is a new recruiting competition where the winner can get a 3 year membership extension. 2nd place will get 2 years and 3rd place will get 1 year and, in all cases, you still get to keep the 6 months free for recruiting the initial 6

(Continued on page 2)

(Continued from page 1)

new members! As I've said in the past, EWMA is growing every day and we are always looking for more members to add to the rosters. Remember this, the **more** members we get, the **better** benefits that we can acquire. Being a member already brings with it many great benefits, especially when you book hotel accommodations through Hotel Engine or Wyndham Rewards. I have personally saved more than my annual membership dues by booking rooms using those 2 benefits. A complete list of Membership Benefits and the official rules regarding the Recruiting Rockstar Challenge are available on the national website at WWW.EWMA-WORLD.ORG.

Now for the really exciting news... I am very happy to announce another new chapter in the Florida District! Many thanks to Rance & Sandy Smith for being the first Chapter Directors of FL1-G Sanford!!! They bring with them many new members, most of which are members of a fantastic Central Florida Drill Team! I can't wait to see them perform! Again, Congratulations to all members of FL1-G... Welcome to the Florida District, where **FUN** is the #1 priority and Welcome to the EWMA family!!!

Does anybody else out there want to start a new chapter? It's really easy. Just contact me and I will guide you through the process. Remember, all it takes to form a chapter is the desire and at least one participant

willing to be the Chapter Director. There are many areas in our state's boundaries where members live, but there are no active chapters within a reasonable distance. We would love to fill those voids with new chapters.

We hope everybody enjoys this month's weather and riding opportunities. We all know what starts next month...

Until we are together again... (hope to see you soon in Newberry!)

Ride Safe, Ride Often... but most of all... **RIDE!!!**

Fred and Karen Kennedy
Your Florida District Directors
The **FUN**shine State,

**Ed & Jeanette Carr
Assistant District Safety /
Ride Coordinators /
District Rides**

**FLORIDA DISTRICT
RALLY VOLUNTEERS -
MANY THANKS!**

Jeanette & I rolled into the Best Western Gateway Grand Hotel and Conference Center a little after noon on Tuesday to set up for the second Florida District Eagle Wings Motorcycle Association Gathering for **FUN, Safety & Riding**. On Wednesday while Jeanette set up the Game Room, **Dominick DeSiato** & I set out to ride the routes as designed by **Ralph Brigham & Mike Ewing from Chapter FL1-Y Gainesville**, for the Friday & Saturday Guided Rides. The rides, as designed, were about

136 miles and should take about 3 hours to complete. Finding no delays on the routes, they were ready for the scheduled rides on Friday & Saturday mornings at 8:30 AM.

Guided Rides

With Carlos Lozano leading group two and **Bob McConkie** as his tail gunner, I led group one with **John Dubose** tail gunning for me, **Genene Poppell from Chapter FL1-D Pensacola** brought up the rear for me on Saturday. As it turned out, there were so many riders wanting to be included in the Guided rides, a third group Lead by **District Ride Safety Coordinator Dominic Desiato** with nine riders in each group for both Friday & Saturday. For Saturday's ride **Bob McConkie** lead group three since he had the GPX file downloaded to his GPS and **Dominick** brought up the rear for group three. On Saturday's group two, **Tim Poppell from Chapter FL1-D** was the tail Gunner for **Carlos**. Thanks to all the riders, leaders, and tail gunners for a wonderful ride experience on both days.

Game Room

We are also in charge of the Game Room at the District Rally and we are very thankful for all the volunteer help to run the games and assemble & disperse the prizes each day.

"Beat the Clock" takes strategy. **"The Wobbler"** takes skill. The other games – **"Plinko"**, **"The Ducks"**, **"Wheel of Fortune"**, and **"High/Low"** - scores depend on luck and sometimes a little creativity by the person in charge of the score – all for **FUN** and laughter.

With 4 shift changes each of the 3 days, the **"Army of Volunteers"** involved many chapters. **THANK YOU** to the following chapters: **FL1-M Clearwater**, **FL1-O Stuart**, **F:1-D Melbourne**, **FI1-F2 Ocala**, **FL1-P Lake Placid**, and **FL2-H Wauchula**, **FL1-K Palm Coast**, and **Bill Berry**.

All participants said they enjoyed **"working"** the games and some have already asked to help again in 2025.

Don't get stuck booking a room an exit or two down the road! Book your room early at the Best Western Gateway Grand in Gainesville, FL, for our 2025 Florida District Gathering of Friends for FUN

Dominick & Diane DeSiato
**District Safety /
 Ride Coordinators**

Greetings to all!

UNDERSTANDING HOW TO CHANGE A TWO-Wheel MOTORCYCLE'S DIRECTION

The ability to be able to change the direction of your motorcycle at a moment's notice is essential to safe motorcycle operation. Knowing how this necessary task actually works might save you a moment of indecision that could save you time and space to a maneuver you might need.

When to steer a motorcycle like a tricycle and when to press forward on the handlebar end to change direction must be first understood. If you are riding slow, which means any speed under 12 mph on a two-wheel motorcycle, you must steer the handlebars of the motorcycle like you would a child's tricycle to change direction. The gyroscopic effect of the two wheels spinning fast enough for

the motorcycle to maintain its own balance occurs at 12 mph and up. At 12 mph or higher you change directions of the motorcycle by pressing forward on the handlebar grip on the side you want the direction of the motorcycle to go. If you want the motorcycle to go to the right, press forward on the right handlebar grip. If you want the motorcycle to go to the left, press forward on the left handlebar grip. You must maintain the forward pressure on the appropriate handlebar grip as long as you want the motorcycle to keep turning. To straighten up after the turn is complete, you simply reduce the pressure on the handlebar grip you were pressing. The gyroscopic effect of the spinning wheels will naturally bring the motorcycle back to a straight path of travel.

Some riders say: "Push forward with one hand while pulling back with the other hand". This is only true with a three-wheel motorcycle. Steering a three wheel-motorcycle is direct steering all of the time at any speed. It takes a lot of muscle to steer a three-wheel motorcycle; so, using the Push/Pull method makes steering easier for the rider.

On a two-wheel motorcycle at speeds of 12 mph or higher,

only the hand doing the pushing or pressing is needed. Your other hand is not needed to do anything other than remaining on the opposite handlebar grip for safety and stability. Just to prove the point you could actually take the hand not being used to do the pressing off the other grip and the motorcycle will still maintain the direction you want to go in the curve. The motorcycle will go in the direction of the pressing hand without any help from the other hand.

Understanding how the motorcycle reacts to you is helpful when you have to react unexpectedly to change directions quickly to avoid a hazard. Pressing forward on the handlebar grip end may not be your natural instinctive way to react. As with many aspects of riding a motorcycle, different necessary techniques will only become instinctive to you if you practice them. When you are riding your motorcycle practice avoiding imaginary objects. Pick a dark spot on the pavement or a manhole cover. Quickly press forward on the appropriate handlebar grip to avoid the object. Only then will you properly react when a real emergency arises.

Ride Safe!

Harry & Lynn Anderson
Assistant District Directors
 District Hospitality Coordinators
 (FL1-H, FL2-D)

First off, a BIG welcome to the new chapter FL1-G. This

chapter is made up of the Central Florida drill team. Know what comes in May? Memorial Day, when we remember those that have gone on before us. For those who do not live in

Brevard county, the one thing we look forward to at this time is the arrival of the miniature Vietnam wall. This wall is a complete replica of the one in Washington DC. The people who work behind the scenes to put this on each year do a FANTASTIC job. They now include tributes to just about ALL the fallen from All the wars. Here are some tidbits about our famous wall.

There are 58,267 names on the wall, 39,996 were just 22 or younger, 8,283 were 17, 33,103 were 18, 5 soldiers were 16. There are 3 sets of Fathers and sons on the wall, 31 sets of parents lost 2 of their sons, 997 were killed on their first day, 1,448 were killed on their last day, 8 women (nurses) are on the wall, 244 soldiers were awarded the medal of honor during the war...153 of them are on the wall.

If you get the chance to see the wall in Washington DC, DO IT... Standing at that wall, you will feel its power. A power that

without thinking, the tears will fall. Somehow you feel each and every soldier whose name is on that wall. It doesn't matter what they did for a living, rich or poor; black, white, Asian... whatever, they each fought an unpopular war and laid down their lives hoping to make it better. So, this Memorial Day, when you are remembering loved ones, remember the people on that wall. You may not have known them, but they knew this country, therefore they gave all for you.

Until next time. We left for the Tennessee Rally on April 24th. Hope a bunch of you joined us.

 Ride Coordinator / Safety
 Presentations**

Ride Responsibly

As I'm riding solo on I-95, I see this over-head, variable message, light sign:

I think to myself, I know what "LOOK TWICE FOR MOTORCYCLES" means to me as a car driver and motorcyclist, but I haven't really thought about what "RIDE RESPONSIBLY" means to me as a motorcyclist. So, after a little research and thought, here are my newly formed, personal

views about riding responsibly for your consideration.

Riding responsibly is simple. It only involves adhering to Eagle Wings Motorcycle Association (EWMA), Motorcycle Safety Foundation (MSF), federal, and state laws and safe practices! Here's my simplified list.

1. **Pre-ride** motorcycle inspection. Responsible riders conduct regular maintenance and inspections on their motorcycles. This includes checking tire pressure, brakes, lights, and other essential components to ensure safe operation. Motorcycles are like airplanes in many aspects. It's much easier to discover and fix a problem before getting underway than it is to discover a problem in the air or on the road.

2. **ATGATT** - All The Gear All The Time. Prioritize your and your co-rider's bodily preservation by using the EWMA recommended riding attire. Here is my embellished list: (1) DOT-approved helmet, (2) shatter-proof eye protection, (3) heavy-duty, full-fingered gloves, (4) long sleeve, anti-abrasion shirt (or better yet an

armored shirt or jacket), (5) long pants-anti-abrasion material, (6) and heavy-duty, over-the-ankle boots. To be honest, over-the-ankle boots are not a high priority for me on my Spyder trike with floorboards. Substantial shoes certainly.

3. **Follow** the rules and regulations. This includes having a valid motorcycle driver's license, registration, and adhering to traffic laws. Use signals when turning or changing lanes, and ride within safe speed limits, etc.

4. **Awareness** and Alertness. Responsible riders remain constantly aware of their situation and surroundings and are alert for changes that may require action. They never ride under the influence of alcohol or drugs and always stay focused on the road. **MAINTAIN SITUATIONAL AWARENESS!**

Riding is a highly rewarding endeavor, and to **RIDE RESPONSIBLY** contributes to the safety of everyone on the road.

Ride Safe!

Ride Coordinator /
First Aid/CPR**

WOW. . . WHAT A GREAT RALLY!

I didn't get a chance to write this article last month, but I still wanted everyone to know what a great Rally we had this year. The hotel was comfortable. The breakfast, with the fresh made omelets, was delicious. The hotel staff was helpful. Having fresh coffee any time of the day was great.

Not to mention all the presentations, games, off and on the bike, the Chapter challenge, vendors, the beautiful riding area, and spending time with all of our friends. The costume contest was great and the talent show was even better. Carlos you did a great job MC'ing. The pajama party was a lot of **FUN**, with really good popcorn and a movie that I laughed so hard at. It was also such a treat to have members of the National Team participate and see how Florida puts on a

Rally. And guess what, we get to do it all over again next year – same place, same time. This time I hope to see all of you there – don't miss such a great time again!

My eye doctor sent me this article and I thought it would be a good one to share with you. Enjoy!

HOW MANY OF YOU SUFFER FROM ALLERGIES?

Especially in the spring. Allergy season is just around the corner and this time of year can affect your riding.

With the arrival of spring, we are entering allergy season, which can cause congestion, headaches, and itchy eyes but also marks new beginnings.

According to the American Academy of Ophthalmology, eye allergies, also known as allergic conjunctivitis, are a common condition. They occur when the eyes react to an allergen.

The eyes produce a substance called histamine to fight off the allergen. As a result, the eyelids and conjunctiva become red, swollen, and itchy. The eyes can tear and burn. Unlike other kinds of conjunctivitis, eye allergies do not spread from person to person. Patients with Spring eye allergies commonly have nasal allergies, an itchy, stuffy nose, and sneezing. This is typically a short-term condition linked with seasonal allergies.

Eye allergies can be caused by various factors such as pet dander, dust, pollen, smoke, perfumes, and even certain foods. If you cannot avoid the cause, your eye allergies may become more severe, resulting in significant burning, itching, and increased sensitivity to light for your eyes.

What Are the Symptoms of Eye Allergies?

The most common eye allergy symptoms include:

- red, swollen, or itchy eyes
- burning or tearing of the eyes
- sensitivity to light

What Causes Eye Allergies?

An allergy is when the body's immune system reacts to an ordinarily harmless allergen. When an allergen comes in contact with your eye, specific cells within your eye (called mast cells) release histamine and other substances to fight off the allergen. This reaction causes your eyes to become red, itchy, and watery.

What Are Eye Allergy Triggers?

- Outdoor allergens, such as pollen from grass, trees, and ragweed
- Indoor allergens, such as dust mites, pet dander, and mold
- Irritants, such as cigarette smoke, perfume

(Continued on page 8)

(Continued from page 7)

Spring Eye Allergy Management

- Avoid triggers by making changes to your home and your routine.
- Keep windows closed during high pollen periods; use air conditioning in your home and car.
- Wear sunglasses outdoors to keep pollen out of your eyes.
- Wash your hands and face frequently.

If you suffer from eye allergies during spring, it is recommended to schedule an appointment with your eye doctor before using any over-the-counter eye drops. This is because a prescription oral antihistamine, eye drops, or injections may be more effective in managing your symptoms. If you notice that your eye allergies are causing vision changes, feelings of a foreign object in your eye, or acute pain, you must make an

emergency appointment as soon as possible.

Spring is a beautiful season, but it can be difficult for those who suffer from eye allergies. Don't let your allergies prevent you from enjoying the beauty of spring or riding your bike. Your eye care professional can help you conquer your eye allergies and ensure a happy spring season.

Overcome Springtime Eye Allergies and Experience a Joyful Spring time RIDE!

When Is Mother's Day in the USA?

Mother's Day in the United States is annually held on the second Sunday of May. The same is true for Australia and Canada. However, there still exists confusion about the right date.

May 12th 2024

History of Mother's Day

Around 1870, Julia Ward Howe

called for Mother's Day to be celebrated each year to encourage pacifism and disarmament amongst women. It continued to be observed in Boston for about ten years under her sponsorship, but lost popularity afterward.

In 1907, Anna Jarvis held a private Mother's Day celebration in memory of her mother, Ann Reeves Jarvis, in Grafton, West Virginia. Ann Jarvis had been a peace activist during the Civil War and organized "Mother's Day Work Clubs" to improve health and cleanliness. Her daughter Anna Jarvis launched a quest for Mother's Day to be more widely recognized. Her campaign was later financially supported by John Wanamaker, a clothing merchant from Philadelphia.

In 1908, Jarvis was instrumental in arranging a service in the Andrew's Methodist Episcopal

Church in Grafton, West Virginia, which was attended by 407 children and their mothers. The church has now become the International Mother's Day Shrine. It is a tribute to all mothers and has been designated as a National Historic Landmark.

US President Woodrow Wilson signed a proclamation in 1914 designating Mother's Day as a national holiday to honor mothers, to be held on the second Sunday of May.

Traditionally, the holiday is about honoring mothers—by giving flowers, taking Mom out for brunch, or writing something sweet on a Mother's Day card. But what is the best gift? Typical gift ideas are Mother's Day flower bouquets with gift cards or greeting cards, maybe with a voucher for a "special day" for Mom or Mother-in-law.
