FOR IMMEDIATE RELEASE

PUPPY LOVE PARTNERS WITH FAMILY HOUSE
Bringing Adoptable Animals Together with Severely Ill Children

Bay Area based Puppy Love is proud to be partnering with Family House to bring puppies and small dogs into the lives of severely ill children living at Family House.

Puppy Love is a collaborative service that provides well being programs for corporations, hospitals and long term care facilities. The company brings puppies and small dogs into these locations to provide structured puppy play that brings stress relief and joy. Puppy Love also offers an educational element during their events. The dogs are adoptable and often after a puppy party, the puppies will find their forever homes.

Family House serves as a home away from home for families of children with cancer and other life-threatening illnesses by providing physical comfort and emotional support, free from financial concerns.

By bringing Puppy Love into Family House the families residing at Family House will be connected with loving animals. They will be able to get puppy snuggles, give belly scratches and kisses. This brings a slice of normalcy to these families. Puppy Love is helping to provide emotional support for these children.

Sabrina Freed, Founder of Puppy Love, began searching for a meaningful way that Puppy Love could give back to the community. Puppy Love has always given 20% of all proceeds back to local animal rescues. However Freed wanted to develop a hands-on giving program. "Fueled by my love of our community, I knew I wanted to share my passion for animals with those who don't have access to daily pet snuggles. When I met with Family House, I knew immediately that I could bring a unique joy to the residents. I am very excited to facilitate the puppies and children snuggling, playing and creating memories," says Freed.

Puppy Love hopes to partner with other local corporations to make these puppy playdates a long-term reality at Family House.
