

## 9<sup>th</sup> EpiCoN Meeting Program

17<sup>th</sup> of June, 2019 – Lecture Hall D, T9 NUS

### 09:00 – 09:15 Opening Remarks

09:00 – 09:15 Welcome and announcement of the program.

### 09:15 – 10:45 Session 1: Epigenetics [Chair: Andreas Hörnblad]

09:15 – 09:45 **Jan Larsson**, PI – “*Chromosome-specific gene regulation: targeting, regulatory mechanisms and evolution*” (25 min + 5 min questions)

09:45 – 10:15 **Sandhya Malla** – PhD student – “*Interplay between histone regulation and DNA modification*” (25 min + 5 min questions)

10:15 – 10:30 **Coffee/tea break**

10:30 – 11:00 **Tatiana Kan** – Research engineer – “*Targeting of Polycomb repression to human genome.*” (25 min + 5 min questions)

11:00 – 11:30 **Zahra Haider** – Research assistant – “*DNA Methylation Signatures in Leukemia and Lymphomas*” (25 min + 5 min questions)

11:30 – 12:40 **Lunch at Kristallen, NUS (Southern Entrance)**

### 12:40 – 13:10 Session 2: 5-min flash talks [Chair Moa Lundkvist]

12:40 – 13:10 **Karolis Vaitkevicius** – Research engineer - “*RNA targets of POF*”

**Maria Kim** – Research assistant – “*Identification of POF-like dosage compensation protein*”

**Ana López** – Postdoc – “*Role of retinoic acid in endoderm regionalization*”

**Ghazala Khan** – Postdoc – “*Decoding the map of RNA modifications in cancer*”

13:10 – 14:00 **Midsummer strawberry cake and constructing “Blomkransar”**

### 14:00 – 16:00 Session 3: Chromatin and transcriptional regulation [Chair: Denise Rawcliffe]

14:00 – 14:30 **Silvia Remeseiro** – PI – “*Long-range gene regulation and 3D chromatin organisation: Implications in cancer*” (25 min + 5 min questions)

14:30 – 15:00 **Alexander Glotov** – Postdoc – “*Role of H2AK118 ubiquitylation in Drosophila genome*” (25 min + 5 min questions)

15:00 – 15:30 **Markus Schmid** – PI – “*Integration of flowering time signals in Arabidopsis thaliana*” (25 min + 5 min questions)

15:30 – 16:00 **Closing Remarks, Election of committee for the next EpiCoN meeting.**

“Kubb” at UmU Campus followed by dinner at Pub Rött in Berghem

**LEXOGEN**  
Enabling complete transcriptome sequencing
