VINIFICATION

The grapes were cold soaked 3 to 7 days, with extended skin contact up to 5 weeks, and then gently pressed. The different varietals were co-fermented to increase flavor and complexity. The wine was aged in a combination of 25% new American oak barrels, 160-gallon Demi-Muid barrels and 3000-gallon French oak tanks to greater develop the wine.

TASTING

Our Re·viv·al 44 is a lovely, full-bodied wine with jammy fruit on the front pallet and a nice earthy dry finish. 44 was named for blending 4 grape varietals from 4 separate estate vineyard locations. This is a soft, appealing red wine that is perfect for sipping or for pairing with a variety of cuisine.
