

Land Development CADD Technologist

Scheffer Andrew Ltd. is currently seeking an intermediate Civil Engineering CADD Technologist with land development, transportation, planning, and engineering drafting experience to join our team.

Scheffer Andrew Ltd. is a medium sized engineering and planning consulting firm, which has operated in Western Canada, primarily Alberta, for more than forty years. Our work focuses on municipal, land development, transportation planning and engineering.

Duties of this position will include:

- Preparing detailed design plans, sections, details, and schematic/concept drawings using Autodesk Civil3D on land development and roadway design projects
- Coordinating project drawings with project managers, CADD Staff and others.
- Provide technical support to project managers, project engineers and planners
- Ensuring that the projects' needs are met in a timely and effective manner
- Understanding, using, and adhering to Scheffer Andrew's CADD Standards
- Maintaining the firm's standard electronic drawing file organization for projects

The ideal candidate will have:

- An Engineering Design and Drafting Technology diploma or equivalent from a recognized college
- Minimum 5 years of experience in the land development industry
- Currently registered, or qualified to register as a Technician / Technologist with ASET or APEGA.
- Proficiency in Autodesk Civil3D design and drafting. Knowledge of MicroStation.
- Familiarity with roadway corridors, working with surfaces, calculating earthwork volumes in Autodesk Civil3D
- Working knowledge of Microsoft Excel
- Attention to drafting accuracy and quality control
- Familiarity with various Municipal and Provincial design and drafting standards- particularly those of City of Edmonton and surrounding municipalities
- Ability to prioritize multiple tasks and demonstrate a flexible approach to work assignments
- Ability to work in team setting with strong interpersonal and communication skills
