Al Dupell had signed the certification and Chris Liller signed the adoption attestation for the LEMP and NIMS. The Clerk will forward the document to WRC.

Road Crew Issues: AOT Grants: Chris Liller asked for necessary signatures for grant requests for paving and structures. Larry Bills signed the MRGP report and the compliance statement for Road and Bridge Standards, as required. **Potential Yearly Road Projects:** The Board discussed 1) the paving project on Stratton-Arlington Rd. (1.3 miles from Wardsboro Town line to 477 Strat.-Arl. Rd.) and 2) a potential issue with Stratton Mountain Access Rd. at the Treetop entrance. In regard to this issue, Chris Liller addressed various concerns there. He and Larry Bills do not think there is an issue with the fill that had been used to build up the road many years ago, as some have suspected. Also, it had been pointed out that the guardrails lean there; however, Chris Liller believes that these guardrails may not have been buried deep enough, so that they lean from snowplows pushing on them. The culvert also seems to be in good condition following a visual inspection. The problem with the pavement there may be due to nothing more than expected wear and tear due to heavy traffic. **Salt:** Chris Liller said that he bought additional salt to get through the winter – this batch was a bit more expensive, as it is of better grade and will hold up better with minimal clumping over the summer, if it is not used this year. **FLEET Permits:** The Selectmen reviewed and approved FLEET permit requests from 1) David Chaves Excavating, 2) Fuller Sand and Gravel, 3) Structural Wood Corp. and 4) R.K.Miles, Inc.. Greg Marcucci so moved. Boomer Walker seconded – all concurred and Larry Bills signed these permits.
