

Vessel Safety Inspection

Will your boat pass a safety inspection by the US Coast Guard? We are very fortunate as members of Southwest Florida Yacht Club to have a member who is a certified vessel safety examiner. He is available and very happy to provide you a free safety exam.

The following is the information you need to contact him to arrange an inspection:

<u>Name</u>	<u>Telephone #</u>	<u>Email Address</u>
Pete Partilo	239-542-0729	ppartilo@comcast.net

Let Pete tell you if your boat meets US Coast Guard safety standards; it could save you a fine if your boat doesn't meet their standards. Displaying a **current** Inspection Sticker on your boat, could possibly save you from the inconvenience of a random US Coast Guard inspection.
