

Mouse Anti-Ki67 [MDKI67]: MC0196, MC0196RTU7

Intended Use: For Research Use Only

Description: The antibody labels Ki67, a proliferation-associated nuclear protein expressed during all active phases of the cell cycle. Quantitative determination of the fraction of cells which stain positive for the Ki67 nuclear antigen has been demonstrated to be a highly accurate way of assessing the fraction of proliferating cells within a given tissue. Estimation of the cell proliferation index in tumor cells is valuable as a prognostic indicator.
