USER BENEFITS

- Prevents filter plugging caused by thermal stressing of the fuel
- Prevents formation of black sludge
- Restores thermal and oxidation stability of ULSD fuels
- Eliminates carbon deposits from forming in high pressure fuel injection systems
- Restores lost horsepower due to the formation of deposits
- Extends filter life 3 - 5 times longer
- Replaces lubricity level of sulfur lost in hydro treating process of ULSD
- Cleans and keeps clean fuel injection system
- Restores fuel economy to new engine performance levels
- Outstanding performance in the Peugeot DW10-CEC XUD-9 Test
- Compatible with mineral based biodiesel fuel and blends
- Elimination of steel corrosion caused by ULSD
