FEATURED ASSOCIATE MEMBER

Kjeldsen, Sinnock & Neudeck, Inc. (KSN) is a full service civil engineering, land surveying, and construction management firm specializing in the planning, design, construction management, and surveying and mapping of public works infrastructure, transportation, commercial, industrial, institutional and water resources related projects. KSN and its predecessor firm, Darrhl I. Dentoni & Associates, have been providing civil engineering and surveying services to public and private clients throughout Central California since 1956. KSN has the expertise and capability to handle all phases of project development, from initial planning and site surveying, through design and construction management, and on to supporting the maintenance and operation of the completed project.

KSN's highly qualified staff of thirty-two professionals includes eleven Registered Civil Engineers, four Professional Land Surveyors, four construction managers and inspectors and additional technical and administrative support staff. KSN is located at 711 N. Pershing Avenue in Stockton. KSN is a California Certified Small Business (# 20146).

KEEPING UP

****Check [CCVFCA Website](#) for more information on topics in Flood Flash**

Progress and Future Direction of CA Water Plan Topic of All Day Symposium

DWR and the Association of CA Water Agencies (ACWA) are co-hosting and [all day CA Water Plan briefing](#) discussing accomplishments of and future opportunities and next steps for creating a more resilient water system. Top-level administration officials will share the vision behind the CA Water Plan which is considered the State's roadmap toward sustainable water management, and discuss how it is intended to guide water policy in California. The symposium will also include breakout sessions to allow attendees to provide their input on issues such as statewide infrastructure investments, local water resources development, regional integrated management, water efficiency, environmental restoration, and disadvantaged communities. [Registration](#) is required.

Water Management Basics Offered in WEF Workshop

The Water Education Foundation (WEF) is once again offering their popular [Water 101 Workshop](#) providing a broad overview about water basics for anyone interested in learning about the history of and management of water in California. Experts will provide their perspective on many topics including water rights, recent legislative policies such as the new groundwater law, agencies with water management responsibilities, and other key water issues facing the state.
