

Hot Blood in a Cold, Cold World

Hot blood
Hot Blood
Hot blood running through my veins
Hot blood driving me insane
Hot blood in a cold, cold world

Hot blood will get a man in trouble as fast as anything
Hot blood will get a woman in trouble.
That's something we've all seen.
Hot blood in a cold, cold world.

On those hot summer nights
When you turn out the lights
You can almost hear it flowing
The pace of the street is fast
And the pressure is high
Partly natural
And, partly commercialized.

Hot blood
Hot Blood
Hot blood running through our veins
Hot blood making me insane
Hot blood in a cold, cold world

Hot blood will get a man in trouble as fast as anything
Hot blood will get a woman in trouble.
That's something we've all seen.
Hot blood in a cold, cold world.
