Greetings Dear Heart,
Indeed a pleasure to be with you all at this time.

Man has indeed created much confusion at this time and would be wise to consolidate his energy into knowing whom he is, understand.

Man wonders on not fulfilling his role at this time and that is to seek whom he really is and his purpose here at this time.

Man is so consumed in the self that he fails to see the suffering close by and offer assistance.

It is to this end that man will indeed awaken and become remorseful for he has allowed the ego self too much reign.

It must be said that to know me is to be me and man would be wise to absorb those simple words for here lies much truth.

Man must not wait for it to be done for him for this indeed teaches nothing.

To have the experience teaches far more.

Man must surrender his ego self and become a servant of the Father and carry forth the Father's works for in so doing will bring about much needed change.

Change is crucial to the future of this plane for it has indeed become corrupt by too much greed and not enough caring for the other.

Love thy neighbor as thy self, do unto others as you would thy self.

Man has pushed aside these simple truths and in so doing has created much pain and suffering both to himself and the planet.

Man must wake up and recognize that change is indeed what is needed this hour.

In Love and Light

Greetings Dear Heart,
Indeed a pleasure to be with you on this occasion.

We note the great works being done at this time and would commend the many searching this hour for their identity.

One must resource the many avenues until one is at peace within and comes to recognize the Father is 'All.'

One will deliver to the masses that one must not become subject to deception as one travels one's journey and must always judge by one's feelings, understand.

Knowledge is no good unless it is felt, for it is the feelings of the expression that teaches man the most.

Without feelings then words are lost and not absorbed or learnt by, understand.

It is indeed a profound expression to have to feel one's way for in so doing teaches the most and the lesson is learned the most.

Too many think they can learn solely by the written word and not by the heartfelt expression of the word.

Man has yet to fully comprehend the mighty value of the spoken word.

He uses it too flippantly. One must master the expression of the word and the feelings associated with it to learn the most, understand.

Words are energy and have a negative and a positive value.

Man must harness the positive word to harness the positive energy and cause a lift in vibration to the greater good of mankind, understand.

In Love and Light
Amen

Greetings Dear Heart,
A pleasure to be with you at this time.

It is indeed noted the rays across the atmosphere and may we remind the 'All' to surrender and become One.

One with the Father Almighty whom without his existence no one would reside this day.

One must glorify oneself in the awe for in so doing allows one's self to be immersed in the Light. To feel the awe inspiring Love penetrate the soul, to allow the magnificent works to unfold.

One is always dubious when travelling into territories unknown but be rest assured the Almighty would not cause any of his children pain unnecessarily.

To allow the Father to express his work through you is the highest acclaim. One would be wise to listen, to allow the soul to nourish itself to replenish from the well within for in so doing will open a much needed expression to be released.

Man has hindered his progress at this time for he fails to see the powers the Almighty gave him and has let his ego rule.

In doing so he has brought untold pain and suffering not only to himself but to this planet. It is indeed time to awaken and take control before all is lost for in so doing can bring about much change which will in turn create much healing.

Mans own destiny can indeed be altered and man must remind himself the purpose of the journey is to experience much but not become the victim of the experience.

We shall endeavour to bring to you at this time the necessary tools to lift the veil, to allow oneself the freedom to explore other consciousnesses, to expand, to further grasp the concept that all is not what you think nor will ever be.

It is to this end that man must awaken and be healed and allow the planet to heal for in so doing will unite the many.

We are extremely pleased to see the interest in the web for indeed it is reaching many levels of existence at this time.

We would welcome at this time a reading from Murdo for indeed whilst on your plane he expanded man's consciousness in a way no other had done.

He reminds fellow Light Workers that to explore is to concur. One must become to be. One must deliberate then practice.

To Know Me is to Be Me is indeed a profound statement. One must glorify oneself in the knowledge that All is.

One indeed will relish the chance to be, to become, for it is indeed intended.

One will exhilarate one's being when the Ultimate State is perceived. Man's consciousness will expand when he has indeed put into practise the Laws.

Seek me, Know me, BE ME.

In Love and Light.
Amen.

Greetings Dear Heart,
Indeed a pleasure to speak this day.

We note at this time the terrible situation your plane is in and would take this opportunity to remind man that he indeed is being held responsible for his actions.

Man must look no further than the self to rewind his mistakes and become the owner of them.

If Man would only recognise this then much would be halted and change would come about to the benefit of man.

Man is so self obsessed with his own desires to fully comprehend his true self. It is indeed a great waste to throw caution to the wind and not avail oneself to the mysteries that lay within.

If Man would only take the time to explore the vast knowledge within, then man would indeed find his hidden treasure.

It is astounding to see the many still searching out side of themselves when all they need do is seek the solitude and go within.

The great Masters have prepared many lessons at this time and would be honoured if you would oblige them with the undertaking to see that all is indeed broadcast.

Many are with you at this time and many whom gained little insight while on your plane are now learning through the publicised site.

Many are also learning to accept more responsibilities on other planes of existence at this time and would welcome your input to acknowledge their presence here with you at this time.

Many schools of thought coexist at one time and many, many more are relishing your input to indeed help them move on at this time.

Too much structure on your plane at this time is limiting man's freedom to explore nature and recharge his batteries as it were.

Too many are not seeking to charge their batteries by nature and are therefore exposing themselves to much pain and misery.

If man was to experience more light and fresh air to his vehicle he would indeed find his motor replenished with the vital nutrients to proceed.

It is indeed sad to see such primitive happenings and we find it hard that man has not explored his own vehicle further but allows all this artificial stuff to penetrate his vehicle.

He treats his vehicle as though it were a dumping ground and then pays the price for wasted material stored.

Such deliverance this day must be around consumables. Consumables that are foreign to one's system will indeed damage it, so therefore man would do well to exclude foreign matter before it is too late.

One must not allow these chemicals to erode the vehicle, understand.

If only one would take the time to consult within before putting within then man would indeed be guided not to.

To try an justify it is pure deceit.

In Love and Light.
Amen.

Indeed, indeed,
It is imperative to adapt a pattern to bring one into alignment with thy Father.

It is first bought upon us to first acknowledge his presence in each and everything.

There is nothing that thy Father does not abide in.

Your future is indeed bound by experiences and your freewill has led you astray at times for you fail to recognise thy Father's presence in all you say and do.

Therefore man has to be accountable for his actions to which much pain and suffering is bought down for the experience caused.

Man does not understand his actions and his consequences. He needs to make restitution.

He must stop look and listen closely before responding. Man also fails to understand the power of his words and these are causing unnecessary pain and suffering.

Thy Father Is very forgiving of his children if only they would first recognise their mistakes and make restitution.

One should indeed partake in meditation for in so doing stills thy mind and allows all to flow.

Note at first one will have great difficulty focussing and emptying the mind of all clutter. But as one progresses this will indeed become a very peaceful state whereby you will be in a stillness like no other.

In this state one will experience Thy Divine Presence and will be filled with Love Eternal.

One would be wise to set aside the time to practise on a regular basis and before you know it you will actually look forward to the experience and feel remarkable afterwards.

In grounding oneself with thy Father then one is allowing the energy to flow out, not as others see it as flowing in. Man becomes confused here and gets his flow wrong.

The more experienced one becomes and allows the flow the greater the experiences of Divine Love will flow.

In Love and Light.
Amen

Greetings to Thee at this time, this place.
It is indeed noted the good works being produced at this time.

You would be wise to include excerpts from Joshua as he is indeed with us this day and would welcome the opportunity to converse at this time.

Welcome Brothers of the Light,

May I say how tremendous it is to see so many of you collaborating to spread the word at this time. Deliverance is the key at this time and many are over looking their birthright to examine foreign cultures.

It is indeed a splendid sight, the post, and we would recommend further development at this time. Many will indeed proclaim to be investing but will only stay a while till other pastures lure them on, only to find they return for none have the simplistic answer as this site does.

May we remind man this hour to reflect on his being to acknowledge the Father in all.

Many are still in search out side of themselves and are becoming increasingly frustrated.

One need look no further than thy self, for here lies all the answers to your questions.

One must allow The Source freedom to express and all will indeed flow.

Thy Father is indeed with each and everyone for he created us all.

Man still sees the Father out there separate to us all and this is not so.

Thy Father gave all freedom to roam and to experience many lessons along the way to propel you back to his Divine Love and Wisdom.

However, many of you have strayed at this time and are lost.

It is imperative to stop your searching out side of thy self and listen to thy Father within, for he has been with you throughout all, not interfering, but patiently waiting for you to open your heart and acknowledge him.

One must surrender the man made culture of falseness to proclaim the all.

Man must see this deception this hour for he is indeed causing much havoc to this plane of existence at this time.

Man must learn to unite and become as One to reap the fruits of the Father.

May we all pray for the future to bring Unity back to mankind, for indeed he has bought about much separation, which in turn has caused havoc on your plane.

May we bid you farewell at this time and say we will return again.

In Love and Light.
Amen.

Dearly Beloved,

It is indeed a great pleasure to be spending time this hour. May we Rejoice in the Knowing, Rejoice in the Understanding, Rejoice in the Knowledge for it is to be said that the Wisdom of the Father will Eternally set us free.

We are indeed in need of self examination at this time. Man would be wise to Assess his Words, Assess his Actions, Assess his Thoughts for in so doing will he delve into the mysteries within.

Know that one has indeed all the resources available to do this. One does not need to seek outside help to do this. Just listen and watch one's self is all that is required, but alas the many have no faith in thy self and impose self limitations on one's self.

It is said that the Father has given all of his children the same gift, the same power. If only one would explore this, one would indeed discover a basket full of fruit.

Man has become too reliant on the opinions of others to solve his inner turmoil when this is not necessary as he has the ability if only he would listen to heal thy self.

Man has only to open his heart and ask and then listen and he will be guided. Man must have more faith in himself and realise he is One with the Father.

SEEK ME, KNOW ME, BE ME, is indeed a Gift to behold.

Awaken, Awaken, Awaken and Rejoice in the Splendour of Thee Almighty.

Surrender and become as One, with no Beginning and no Ending.

In Love and Light.
Amen
