COMMERCIAL BRED COWS:

9 Young Commercial Cows out of our registered herd. 2-3 years old. Due April 10-April 30. Bred to Bruin Torque 5261 and S R Revival 303. Nice set of young, maternally bred Angus cows. Pregnancy ultrasounded by Dr. Patrick Bierman, Mandan Veterinary Clinic. Vaccinated with CattleMaster FP5, Spirovac VL5 and drenched with Safe-Guard dewormer.

18 Aged Commercial Cows 5 to 9 years old. Due April 16-May 26. Bred to a son of Connealy Thunder and HA Image Maker. Nice set of large-framed, performance cows that we purchased this spring to implant embryos into. These are bred second and third cycle. They are larger-framed cows, averaging between 1400 and 1600 lbs. Their steers averaged 688 lbs when they sold at Kist Livestock on Oct. 11, 2017. Pregnancy ultrasounded by Dr. Patrick Bierman, Mandan Veterinary Clinic. Vaccinated with CattleMaster FP5, Spirovac VL5 and drenched with Safe-Guard dewormer.

COMMERCIAL OPEN HEIFERS:

20-25 Commercial Open Heifers out of our recipient herd. Only the very top-end are being offered, with none retained. These SimAngus heifers weigh 650-700 lbs. and are medium-to-large framed, high-growth cattle.
