

PRAYER

St. Germaine went on to describe the method of Devine transformation:

“By design of nature, our bodies are highly adaptable. Forces of high thinking and frequencies can accelerate this with our intent and voicing the following, clearing our karma, personality defects and negative thought forms and energies:”

“I ask The Devine Cosmic Powers of the Sacred Fires from the Great Central Sun to fill me with unconditional Love and consume all limitations within my world and every mistake I have ever done and clear my soul and bodies (as we have several), with the Mighty Cosmic Violet Flame”

“I also call upon the Mighty Cosmic Violet Flame to consume all my discordant creations and the discordant creations of others around me. Blaze the Cosmic Violet Flame into every aspect of nature that I have harmed in any way, space, time, level, kingdom, realm or dimension in the past, present, future, in-between and in parallel lives. I ask for the healing of all nature.”

“Mighty I am presence, charge my mind and bodies with Your Mighty Energy, Strength, Courage, Devine Victory and Opulence. Charge every aspect of my being and world with your perfection. Bring this body into your Perfect Symmetry. Charge me with the power of the Cosmic Devine Love so I may safely and firmly move forward into the use of the greater Powers without interruption.”

“Fill me with Your Invincible Solution to every problem in my life. I ask for Sacred Fire Control of myself and everything in my life. I command the Devine Plan fulfilled in my world”

“Fill me with the Ascended Master Consciousness and lead me to my ascension now”

“Mighty I Am Presence, be with me this day, walk the earth with me and see that I fulfill my Devine Plan. Hold me in your heart and make me all that you are. I Am the heart and the mind of the Mighty I AM.”

“I call forth the Sword of Blue Flame that keeps me cut free forever from all that I have ever sent out in this and all embodiments”

“I call forth the Triple Archangel Shield to totally surround me and every aspect of my life. I ask for the Archangels Blessing in every aspect of my life.”

“I call forth the Triple Arcturian Shield to completely surround and protect me, my family, and benevolent humans, lifeforms, places, buildings, benevolent technology and businesses and every aspect of our lives in alignment with the Devine Plan.”

“I call forth the most benevolent outcome for all constructive lifeforms and call forth the Violet Flame to completely saturate the Earth.”

“Beloved Mighty I Am Presence and other Benevolent Beings of light, completely surround and protect me, my loved ones, my home, business, car and/or bicycle and everything in my life, with a wall of Blue Flame and the Cosmic Blue Lightning both within my Tube of Light and outside it, so that I cannot be seen, heard, felt or smelt by anything in the dark in any of its forms in any way, space, time, level, kingdom, realm or dimension in the past, present, future, in-between and in parallel lives, as a human being or in other incarnations. I call forth this protection so I can thrive in Devine Light and Love. Blaze a Ring Pass Not of Blue Flame around me for greater protection.”

“I call forth the Mighty Elohim, fill me and the brain of all humans and animals with the 7 Fold Flame of Cosmic Illumination, seal us in the Star of Gold and Devine Victory, Clothe us in a Mantle of the Sacred Flames and the Crown of the Seven Elohim, fan the Threefold Flame within my heart so that I stand within it.”

“I call forth the Angels of the Sacred Flames to walk with me this day and bring as much Light and Love as possible into my life and all of nature. Bless and heal all the Powers of Nature and the Beings of the Elements”

“I call forth all the Blessings that my I Am Presence wishes to give me and I ask for the blessings of the Cosmic Beings of Devine Light and Love. For all of this, I send forth the deepest gratitude.”
