## SHORT TAPE MEASURES

### STAINLESS STEEL

#### PG\_SS 2 SKUs, 1 LENGTH

Stainless components and a stainless blade in our most popular housing enable long tape life in wet environments. The end hook, rivets and spring, and the nylon coated blade, are protected by a chrome-coated ABS plastic case. They are a great choice for tile and granite workers, concrete, coastal and water work, as well as any kind of sterile environments work.

PG1825SS

- Stainless components & blade extends tape life in wet environments.
- Nylon-coating extends life of the blade
- High-impact, chrome-coated ABS case with rubber grip protects the blade and stands up to heavy use

#### AVAILABLE IN

**B = 1-inch wide, nylon-coated, short tape**

B10 = Stainless Steel, SAE: ft., in., 1/8, 1/16 (1/32 in. first ft.)

B21 = Stainless Steel, ENG/SAE: ft., 1/10, 1/100, & ft., in., 1/8, 1/16

#### PRODUCT FEATURES & BENEFITS

Lock	Slide					
Case	Chrome-coated ABS					
Blade	Nylon-coated stainless steel				Holds up in wet environments	
Impact Durability	Rubber grip
