DIFFERENTIATORS

Our experience is what sets us apart!

Wayne Group & Services, Inc has a unique performance capacity in the construction industry. Our technicians take pride in building open, constructive and compassionate relationships with other contractors and sub-contractors. Our ability to cross over to help while working with GCs, architects, engineers, plumbers and electricians helps to maintain a smooth transition as the project takes shape. Our work flow is efficient and timely, and our technicians pride themselves on being the best and rising to the challenge when they come across any difficult situation. Our projects are completed on time and we take pride in passing all inspections!
