

Reservationless Conferencing

Broadsmart's® FlexMeet Reservation-less Conference application enables the user to access an audio conference call on demand. No reservations required – all that's needed to initiate a call is your permanent dial-in number, conference chair and conferee PIN. All participants dial in to the conference and are “automatically” joined together. Establish value, and differentiate your conference call meetings:

- Conduct sales meetings with your team and/or clients.
- Schedule daily, weekly, and quarterly meetings.
- Take your conference call on the road – initiate or join the call remotely.
- Create a professional “design” to conference calls.

Experience the same Broadsmart® customer service experience that you've come to expect – No time limits, no operators unless needed, and total control with a touch of your telephone keypad.

Flexible convenient dial-in numbers for participants anywhere
Receive access numbers, chair, and participant access codes upon ordering. Use the service at your convenience when you desire as frequently as you wish.

Only pay for what you use There are no carrying charges. Pay only for the conference calls you make. Low set up fee!

No long-term commitments Use the service on an “as needed” basis.

Reliability and quality Broadsmart® carries all calls on its world class tier-1 network.

Broadsmart® FlexMeet Reservation-less Conferencing Service Pricing

8.9 cents per minute per participant with toll-free dial in access. Participant time is billed in 60 second increments.

Pay for what you use as there is no minimum charge per conference session.

Conference session summary and participant detail appears on your monthly Broadsmart® bill.

Don't forget to ask about our line of Polycom Conference room phones to compliment your Reservationless Conferencing feature!

Conference Calls within the Domestic US at a rate of \$0.089 per minute!
