

# Colad **SNAPLID** SYSTEM

*The Colad Snap Lid® is  
the fastest and easiest  
paint application system  
for all types of paints.*

## **MIX** SNAP GO

# Colad SNAP LID SYSTEM

Colad is proud to bring you the Colad Snap Lid System®, the fastest and easiest paint application system on the market. By using this “two-step” system you save effort,

time and money. Mix your paint in the Colad Mixing cup. Use it as a paint system by snapping on the Colad Snap Lid® which strains the paint while spraying. Off you go!

## MIX

- *Liner-free cup design: Mix directly in the Snap Lid® mixing cup and use as a paint cup, all in one!*
- *All industry-standard mixing ratios printed directly on the cup*
- *Available Turbomix Paintsaver® speeds up mixing and reduces paint waste*

## SNAP

- *Vented Snap Lid® attaches directly to the precision-matched mixing/paint cup*
- *Fast and easy “snap” assembly for a leak-proof seal*
- *Two built-in removable filter options: 130UM (waterborne paints) and 190UM (solvent-based paints)*

## GO!

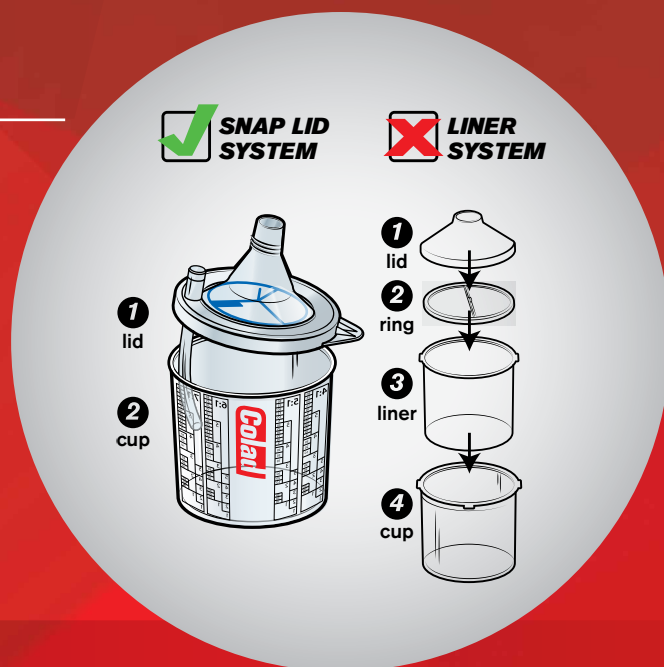

- *Vented paint cup performance*
- *Reinforced lid for a secure closure and leak prevention*
- *Threaded solid connection to the spray gun*

# Superior Paint Flow Technology!

## Fast

- No-liner design saves time: use the mixing cup as the paint cup
- No-liner design saves money: no need to buy separate liners, rings and frame components
- Turbomix Paintsaver® mixes paint 30% faster and more completely for improved color-match

## Clean

- Hassle-free no-liner assembly eliminates crimped seals and leaky rings
- No-liner design eliminates paint waste from overmixing
- Integrated filter assures proper filtering every time

## Brilliant!

- Simple yet brilliant design offers the hassle-free benefits of a disposable cup PLUS the superior spray performance of a vented cup
- Patented/Exclusive Air Valve and Vent Tube maximizes airflow for consistent spray pattern to the last drop: No more overmixing!
- Produces unrestricted paint flow for improved color-match
