Welcome to the World of Competitive Gymnastics

Bronze Level is the starting level for most girls entering the Competitive avenue of gymnastics. You are evaluated after your trial of 1 class for placement.

We are prepping for another great season of Competitive gymnastics!
We are encouraged by the aspect of new gymnasts joining Spectrum Sports Competitive Team. Being part of a Team and still excelling as an individual is one of the great parts of this sport. You are being challenged on an individual basis at training with teammates who encourage and push you to be the best you.

All Levels have required elements on each apparatus (bars, beam, vault, floor), that have to be choreographed into a routine. Vault is the exception to the routine and will require a handstand flat fall.

Training is year-round, if a girl joins after summer training, they will train and be able to compete when they have the skills necessary to compete. Skill level upgrades for competition can be increased throughout the season and alter the skill in their routines.

Coaches enjoy the kids and want to be good stewards for them in a crazy world, showing them what they can achieve not only in gymnastics but growing in life. Gymnastics is not an easy sport; it is year-round and develops a mind set for problem solving as you continue to challenge oneself consistently as you learn.

These young girls will develop into athletes and because of their dedication, determination, perseverance they will move beyond being an athlete into learning a healthy lifestyle that can carry forward, learn how to go rise above an obstacle and adjust to be resilient and progress with flexibility. My favorite part of gymnastics is watching them grow their character with confidence which sparks that individualism and leadership within themselves because that as parent we want our young girls to develop moving into you ladies.

The coaches and myself want to Thank You, for your consideration in joining Spectrum Sports competitive team.

Okay enough of this, I just get excited...Love gymnastics, it offers so much!

Thank You, for your consideration.
