

# ASTRAZENECA INJECTION ONLINE COVID SHOT BLUETOOTH INTERFACING

*Evidence those 'Fully Vaccinated' are being 'Connected' through 5G*

The following is a transcript of a video posted only from Logic Before Authority YouTube Channel back in May 2021. It shows a man, apparently from Canada who took the AstraZeneca Injection. The problem? Aside from getting chills and a fever, every time and everywhere he opens his cell phone, goes near a TV, Smart Car or any device that has Bluetooth capability, it prompts him to log on with his AstraZeneca Injection credentials. He has no way of 'turning it off', nor knows what to do about it.

The following dialog is very interesting and provided evidence that corroborates what many are trying to expose. That indeed, the real reason for the rush and push to get as many humans possibly 'vaccinated' is not about the COVID-19 bio-engineered virus. It is about getting as many People possible injected with the Nano-Particulates or 'Bots' that will make their bodies be connect to the Internet and come 'Online'. And once you have been 'vaccinated', sooner or later, at some point in time when they have reached a certain threshold, they will turn-up 5G/6G/7G to 'flip the switch' and have the whole grip come online.

Since the Spring of 2021 when the COVID-19 Injections were being rolled-out, there started to be a phenomenon of those Injected having a magnetization of their body. Metallic objects started to 'sick' to the body. This did not and is not occurring in all those that have been injected with the various COVID-19 Shots. What has come to light since then is that indeed, there is Graphene Oxide that is able to conduct Electricity once the body is 'zapped' with a frequency. This frequency would be in the form of a Sound, Microwave, and/or Radio Wave, etc.

It is theorized by some that the new technology that the COVID-19 Injections are carrying and infusing with the biology of the human body is to connect it to the Internet of All Things. It is rather an amazing concept as every cell of one's body would be fused with such Nano Bots, Graphene to connect it to the Block Chain. This is after all exactly what the Science Officer of Moderna stated in a Ted Talk a few years ago before all this worldwide Live Experiment got underway through the cover of COVID-19 'pandemic'.

Presently, the Graphene is 'neutral' of any charge but the point is once the 'switch' is turn-up or on, the human body will come 'online' and be connected to the Internet. Space X, Gates, Soros, CIA, NSA are not spending billions on Low Orbiting Satellite Network spanning the Planet so some Teenager can connect to the Internet and download a movie in 3 seconds. No, the aim is to connect every living human to the Internet, 1 COVID-19 Injection at a time. The following is the transcript of the conversation of the man who had this particular experience that is worth taking note of.

---

**Vaccinated Man**

...Yeah it is not. It did not hurt, but I got a fever and chills and stuff like that. I Was not feeling too good

**Interviewer**

No way?

**Vaccinated Man**

Yeah, yeah and a little bit sore but no, no. Now, now it is good. Now it is good. It is last week. The only problem, **the only problem is that everywhere I go, everywhere I go everything is trying to connect to me man.** Like Bluetooth connectivity.

**Interviewer**

What do you mean?

**Vaccinated Man**

I got Bluetooth connectivity. I get in the car; my car is trying to connect to me. I go home, my computer is trying to connect... **Like my phone is trying to connect. Like everything.**

**Interviewer**

Oh, how do you know they are trying to connect to you.

**Vaccinated Man**

Like because I keep getting this bloody notification. Check this out. Everywhere I go. I keep getting this notification all the time. It is nuts...

**Interviewer**

Here with AstraZeneca. Fu\*\*.

**Vaccinated Man**

So, I keep saying...no.

**Interviewer**

What happens if you connect to it?

**Vaccinated Man**

I do not know man, I have not tried it. I am scared.

(Subsequent Contact sometime later.)

**Interviewer**

Hey, everyone is asking how you are doing?

**Vaccinated Man**

I am good. How are you?

**Interviewer**

*I am good man. It is not me that they are asking about, it is you. Are you feeling okay? What about the connectivity?*

**Vaccinated Man**

*The connectivity is still there man. I do not know how to turn it off!*

**Interviewer**

*Yeah,*

**Vaccinated Man**

*Yeah. Check this out. See that TV over there?*

**Interviewer**

*Yeah*

**Vaccinated Man**

*OK, if there walk up to it, it is going to try and connect to... watch this.*

**Interviewer**

*That is the 'cab' man, let me see.*

**Vaccinated Man**

*There it is.*

**Interviewer**

*What?!*

**Vaccinated Man**

*Yeah, everywhere I get the same message.*

**Interviewer**

*Is it just this TV?*

**Vaccinated Man**

*No. I walk away... goes away.*

**Interviewer**

*Oh my God! And you do not feel any vibrations in your body. Nothing?*

**Vaccinated Man**

*Nothing... all good.*
