

SCHOLARSHIP PROGRAM

The Shared Beat Scholarship Program began in 2009 with 2 adult students who dreamed of being nurses. We mentored them, supporting them as they graduated 6th grade, middle school and on to their programs. One student graduated as a nurse's aid and the other succumbed to the pressures of raising a family alone.

The program has grown to 18 students in 2018. They are the future for healthcare in Guatemala. Here is our exciting line-up:

The past 9 years have been an exciting, challenging and emotional roller coaster. But the rewards are well worth the ride. To date we have helped six nurses, two nurses aides and seven health careers high school students graduate! Join us for the ride, making dreams come true and creating a better future for healthcare in Guatemala.
