

# This is World War 3

“Russia is standing alone against the West (America), which is waging an “existential war” against the country, President Vladimir Putin has said. It has been clear from the early 2000s that the West has been acting “insidiously” against Russia, speaking about one thing and doing the opposite, Putin noted. The West’s failure to hear Russia’s repeated warnings, as well as its refusal to fully recognize the country’s sovereignty and respect its national interests, has ultimately led to the ongoing crisis, the president explained.” (All totally True. Russia a great nation of Orthodox Christians with their backs against the wall. America all the Evil against Russia is On You America.)

## STOP, STOP, STOP

All Assistance to Ukraine. That includes all satellite use. Stop all threats and aggression against Russia. The minerals deal is not disengage, but further engagement. It is another hook. Mind your own business America. America orchestrated the overthrow of the Legitimately elected Government of Ukraine, and installed their Nazi counterpart Zelensky along with all his Nazi monsters. Everything that has happened since, America has been the doer of it. Using the Ukraine military as their mercenary army to wage war against Russia. Russia realizes they should have invaded Ukraine immediately at the start. All the death and destruction is all on America. America can not defeat Russia and will not defeat Russia. God has kept Russia from attacking America thus far, which they have every reason to have already done. Judgement is coming America. How soon? We will soon find out. Russia has the weapons of God’s Indignation. You will force them to use them. Zephaniah 3:7
