

HOOPS⁴HEALTH[®]

Back to School Camp

Get back in the basketball groove and shake off the rust. This camp will be a great way to sharpen back up the skills before school. We will focus on drills that work on ball handling, passing, defense, hand/eye coordination, and shooting skills. The camp will feature over 10 drills that improve shooting and dribbling skills that the players can do at home as well. Each session will conclude with scrimmage games. Since 2010 Hoops4Health has and continues to provide excellence in teaching youth the fundamentals of basketball. Serving the North Shore & Chicago Metropolitan Area.
