

	<b>Paul Shupe</b>	<b>PROFILE</b>
---	-------------------	----------------

Paul is a building products resource specialist. He has played a key role with many building products manufacturers, specializing in roofing, walls and waterproofing for industrial, commercial and institutional construction projects. His primary responsibilities include the assistance of technical specifications based on research, and analysis of current industry practices. He is also involved in the educational training seminars for roofing and wall systems used in building design and construction.

Paul graduated from Halifax Vocational College in the Architectural program in 1987 and has been involved in the construction industry for over 29 years.

His decades of experience working in design, distribution, sub-contracting and manufacturing has proven to be a valuable resource for his clients that have come to know him as a dependable and technically competent asset.

Volunteer activities include Co-Chairperson for Construction Specifications Canada (CSC) Toronto Chapter Webinar Subcommittee, CSC EMTT education program, Marketing Officer for CSC Toronto Chapter Trade Show Committee, re-launch Roof Consultants Institute (RCI) Ontario Chapter website.

Additional educational courses that have been obtained include: Registered Roof Observer (RRO), Roof Consultants Institute in [2010, Understanding Conflict Course SCS 2087](#)-002 in 2009, Registered Specification Writer (RSW) – Level 2, Construction Specifications Canada (CSC) in 2004, Certified Technical Representative (CTR), Construction Specifications Canada (CSC) in 2003, Competent Toastmaster (CTM), Leadership Award and VP of Education – First Burlington Toastmasters for 2000 to 2004, Principles of Construction Specifications, Construction Specifications Canada (CSC) in 2002.
