DIFFERENTIATORS

▪ LATEST CONCRETE CRUSHING EQUIPMENT

Adelphi Services Group, LLC uses the latest concrete crushing equipment available. Our systems are mobile, impact crushers with onboard screening and recirculating units that enable us to provide a single size aggregate more efficiently and faster. We also have the ability to use larger screening units to provide two or more aggregate sizes at the same time.

▪ LOADRITE WEIGHT SCALE SYSTEMS

Our support equipment, conveyors and loaders are equipped with LoadRite weight scale systems allowing us the ability to monitor production rates and make adjustments to our aggregate production process.

▪ LEVEL 1A CERTIFIED PERSONNEL

Charles Horton has a Level 1A Certified Personnel Certification with the Georgia Soil and Water Conservation Commission (Cert.# 0000098885).
