

Gobo Projection Options... Your Name in Lights!!!

What is a Gobo? A Gobo is a metal or glass stencil that is placed in front of a very precise lighting source, and used to control the shape of emitted light to project the desired image onto a flat surface from a fixed distance (i.e. floor, wall, ceiling).
All Gobos are custom ordered and require at least a 3 week turnaround. Simply choose your favorite and send us the associated SKU #.
