Safety Event Classification

This program focuses on the Safety Event Classification (SEC) System that provides common definitions and an algorithm for the classification of safety events. The classification is based on the degree of harm that results from a deviation from expected performance or standard of care. The SEC serves as the foundation for the calculation of the serious safety event rate, a volume-adjusted measure of events resulting in moderate to severe harm, including death. This program is intended for quality, risk, physician and nurse peer review colleagues. Medicine and nursing continuing education credits offered.

The John D. Thompson Hospice Institute for Education, Training and Research, Inc. is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians and has designated the educational activity for 5.75 AMA PRA Category 1 Credits (CMEs). Doctors should submit request for CMEs only for those programs attended in entirety.
