## How Can We Do This

We have a couple retail partners that we team up with to "crowd purchase" huge shipping containers that hold 10's of thousands of electronic products at 80-90% off retail. We simply pass our savings on to you as we do not profit from our electronic products. You are basically able to "piggy back" on our partnerships and buying power to get an attractive electronic premium for a fraction of the retail cost.
